2. Identify and discuss strengths and weaknesses of various leadership theories
3. Apply leadership theories as they relate to various situations in your role as a leader in higher education administration

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students must familiarize themselves with D2L and Microsoft Word. Utilization of ETAMU's online library resources, including search and retrieval of peer-reviewed journal articles will be necessary.

Instructional Methods

This is a fully online course. Assignments will be delivered via the D2L learning media platform. Knowledge of the substantive material covered in the course is of central importance. Grading will include consideration of content and APA format guidelines as well as grammar, spelling, organization, and explicit use of readings. A serious commitment to mastery of the content and contribution to everyone's learning is expected. An online course inherently requires students to be active, reflective, and contributive learners.

Student Responsibilities or Tips for Success in the Course

It is the student's responsibility to log in the course website regularly to compile with all the course requirements, and to engage actively in all required class activities.

AI use policy [Draft 2, May 25, 2023]

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
