Student Learning Outcomes

After studying all materials and resources in this course, students will be able to:

1. Explain different competitive environments in which various market participants operate.
2. Describe different marketing activities and services that take place as agricultural commodities go from the farm gate to the plate.
3. Explain how price is determined, and how farm, wholesale, and retail prices are related.
4. Discuss trends and the behavior of consumers, marketers, and the food service market.
5. Discuss agricultural trade, policies, trade barriers, and international organizations and agreements.
6. Explain the importance of commodity varieties and qualities, as well as place and time aspects of marketing.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students are expected to know how to use the learning management system (D2L will be used heavily in this class), Microsoft Word and PowerPoint.

Student Responsibilities or Tips for Success in the Course

1. Read the assigned PowerPoint presentations.
2. Complete and turn in course assignments and exams at the scheduled time.
3. Use the web to actively seek out other agricultural marketing sources that fit your learning style and help you better understand the material.

The syllabus/schedule are subject to change.

GRADING

Your grade for the semester will be a weighted average of individual term paper, homework assignments, and three exams.

Term paper	15%
Homework assignments	10%
Exam 1	25%
Exam 2	25%
Final Exam	25%

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89.99%

C = 70%-79.99%

D = 60%-69.99%

F = 59.99% or below

Assessments

TERM PAPER: All students are required to write an individual term paper. Please make sure to select a topic (which basically is a commodity that you are going to research in your term paper) from the list of topics provided below **at the end of the first week of the semester by emailing it to me.** See the course outline at the end of the syllabus for the due date of the term paper. Students are encouraged to submit completed papers in advance. Papers must be submitted electronically via D2L in Microsoft Word format. Guidelines for writing the term paper are provided on D2L under the "Term Paper" tab.

Term paper topics for students to choose from:

Corn; Wheat; Soybean; Sorghum; Oats; Cotton; Rice; Milk; Tobacco; Peanuts; Potatoes; Tomatoes; Apples; Feeder Cattle; Hogs; Chicken.

HOMEWORK ASSIGNMENTS (HAs): Homework assignments are assigned regularly (see the course outline at the end of the syllabus) and must be completed individually. As a form of experiential learning, HAs help students sharpen their analytical skills. Students must turn in their HAs via D2L according to the course outline. HAs must be submitted by 11:30 p.m. on the due date. No late HAs will be accepted and a grade of zero will be assessed for missed HAs.

EXAMS: Exams will be administered through D2L (see the course outline at the end of the syllabus for specific exam dates). Exams must be completed by 11:30 p.m. on the due date. Exams will be timed and you will have 1 hour and 30 minutes to complete them. Make sure you have internet access ahead of time and that your laptop battery is fully charged. No make-up exams will be given. If an exam is missed a grade of zero will be assessed for it. Exams must be completed individually using your own student account and there should be no collaboration or sharing of work with your classmates on the exams. Final exam is **NOT** comprehensive and you will have 2 hours to complete it.

The syllabus/schedule are subject to change.

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by East Texas A&M University have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

AI Use in Course

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
