### **GRADING GUIDELINES**

Grades will be assigned according to the following scale:

- A = 90 - 100: Work well above the general class level, evidence of participation in related activities  
Outside of the classroom, thoughtful participation in classroom discussion and critique  
Superlative work: careful attention to craft and presentation. Originality of idea and execution work together. Goes beyond merely solving the problem – one who performs at this level is visibly outstanding, work is outstanding in every respect.
- B = 80 - 89: Work above the general class level, participation in classroom discussion and critique  
Fine work. A few minor changes could have been considered and executed to bring piece together. Goes beyond merely solving the problem. Above average: solution to the problem and idea well planned. Execution is well done.
- C = 70 - 79: Average work, minimal requirements met  
Average or a bit above: slipping in levels of originality, craft and presentation. The piece does not work well as a unified whole or statement yet effort was made. You have solved the problem but in a relatively routine way.
- D = 60 - 69: Work below class average, lack of participation and/or poor attendance  
You have solved the problem but there is much room for improving your skills and developing your concepts further. You have neglected the basic craftsmanship skills and breadth and depth of idea development. You were unable to meet mini deadlines. Represents careless and/or incomplete effort. Work is substandard.
- F = 0 - 59: Inferior or unacceptable work and effort, work not turned in, or failure to attend class.

1. Assignment Part 1.....25% Part 2.....25% Part 3.....50%

**AI POLICY**

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text and image, or suggest replacements for text and image, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

**X PLAN STATEMENT FOR MFA VISCOM**

Students, who because of circumstances beyond their control are unable to attend classes during finals week or the preceding three weeks will, upon approval of the instructor, receive a mark of "X" (incomplete) in all courses in which they were maintaining passing grades.

When an "X" is given for a grade in a course, the credit hours and grade point averages are not included until a grade is received which can be up to one year. If the "X" is not removed by that time, the grade becomes an F, and the hours are included in the number of hours attempted.

Recording a grade of "X" requires the filing of a plan for completion. The plan will be submitted with the official grade record sent to the department head who will forward it to the Dean's office. The plan will include why the grade was given and steps necessary for the student to receive the final grade. If the X plan has not been completed by the next time the course is offered the student will register to take the course again.
