# **Browser support**

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

# **ETAMU Attendance**

Students in this course are expected to attend class and be active participants in class activities. Participation is required, and those who actively participate in class almost always receive higher grades than those who do not. Attendance is required. Students are expected to demonstrate consistent attendance. Attendance is defined as being present at the start of class, being in class during class time, and staying until the end of class. Students cannot miss more than 10% of the course meetings. This policy allows for two (2) absences. Any absence missed after two (2) absences will result in loss of credit for the course. Students who anticipate frequently missing class, arriving late, or leaving early should consider dropping the class.

Students are expected to have completed assigned readings prior to the class period in which they will be discussed. You are also strongly encouraged to ask questions at any point during the class, as discussion generally allows students to learn better (and tends to make the class a lot more fun, too).

If you must miss class on a night when you are due to take an examination or give a presentation, you must provide your instructor with university approved documentation reflecting the purpose of your absence. This documentation will be used as a tool to evaluate whether your instructor can provide an exception to the absence policy (e.g., hospital admittance/discharge paperwork, funeral announcements, etc.).

or more information about the attendance policy please visit the <u>Attendance</u> webpage and <u>Procedure 13.99.99.R0.05</u>.
