## **Course Description:**

HIED 627: History of Higher Education in the United States! This course offers a comprehensive exploration of the origins, evolution, and unique characteristics of American higher education. Special attention will be given to analyzing the traditional and contemporary roles of postsecondary institutions, as well as examining how political, economic, and social forces have shaped the landscape of both public and private colleges and universities.

## **Student Learning Outcomes:**

In this course, we depart from the traditional chronological approach commonly found in history classes. Instead, our focus is on specific topics that provide a deeper understanding of the development of America's colleges and universities. By exploring key themes and issues, you will gain insights into the transformation of higher education institutions over time.

Should you have any questions or need further clarification on the course content or expectations, please don't hesitate to reach out. I look forward to embarking on this educational journey with you.

Upon completion of this course, the student will be able to

1. Identify the influence of European models of higher education on American institutions. Specifically, the student will be able to
  - 1.1 Delineate the medieval universities in Europe, especially the British and the German models of higher education.
  - 1.2 Describe the vestiges of the British and the German models of higher education in American institutions.
2. Demonstrate an understanding of state and Federal influence in American higher education. Specifically, the student will be able to
  - 2.1 Describe the involvement of the Federal and state governments in private higher education.
  - 2.2 Discuss the advent and development of public higher education in America.
  - 2.3 Identify and describe the Federal legislation applicable to higher education.
  - 2.4 Describe the role of state governments in public higher education.
3. Describe the progression of higher education curriculum in America. Specifically, the student will be able to
  - 3.1 Identify the curriculum of higher education in 1800.
  - 3.2 Identify the curriculum of higher education in 1890.
  - 3.3 Identify the curriculum of higher education in 1980.
4. Discuss the origins and development of the community college in America. Specifically, the student will be able to
  - 4.1 Identify the uniqueness of the American community college.

- 4.2 Place the community college in the context of American higher education.
- 5. Present an argument on the future of higher education in America. Specifically, the student will be able to
  - 5.1 Identify the national and regional higher education associations.
  - 5.2 Describe the threats to public higher education in America.

## **COURSE REQUIREMENTS**

### **Research and Reading Expectations**

To fully engage with each week's topics, students are expected to delve into both the course text and supplementary resources. While the internet may offer valuable insights, it should not be the sole source of information. Your commitment to thorough research will enhance your understanding and research skills.

### **Participation in Online Threaded Discussions**

Active participation in online threaded discussions is essential. Initial responses to discussion questions are due by Wednesday each week, with responses to peers due by Saturday. Merely regurgitating lecture content or textbook material will not suffice; substantive engagement and citing appropriate references are crucial. Failure to complete both components of the discussion will result in no credit being awarded.

### **Final Assignments**

All students must submit a paper focusing on one of the major student learning outcomes outlined in the course. Late submissions will not be accepted. Papers must be meticulously edited and adhere to APA Style Manual guidelines. Writing quality, including grammar, punctuation, and spelling, will be rigorously assessed alongside content. Any instance of academic dishonesty will result in appropriate penalties.

As you navigate this course, remember that effective communication through writing is a vital skill in this program. Strive for clarity, accuracy, and adherence to academic standards in all your written work.

## **Student Responsibilities and Tips for Success in the Course**

### **Scholarly Expectations**

At East Texas A&M University, we prioritize academic integrity and hold a zero-tolerance policy towards plagiarism and other forms of academic dishonesty. Such behavior includes but is not limited to plagiarism, auto-plagiarism, cheating, collusion, and abuse of resource materials. All submitted work must be original and uniquely created for this course. Works will be screened for plagiarism using TurnItIn or similar services. Consequences for academic dishonesty may range from reduced credit on assignments to potential removal from the academic program or institution, with an automatic F in the course being a standard outcome. Proper citation in APA 6th edition style is required for any referenced works.

Students should demonstrate proficiency in resolving technical issues, problem-solving skills, and the ability to embrace challenges as opportunities for learning and growth. As future educational technology professionals, collaboration and cooperation are essential skills that students are expected to practice throughout this course. It is encouraged to seek assistance when needed and offer support to peers.

### **Timeliness**

Assignments must be submitted by the designated due dates to receive full credit. Late or incomplete submissions may result in deductions of up to 10% of the assignment's value per day, with assignments losing all value if submitted 10 days past due. Ample notification and time will be provided for completing course assignments. Students are encouraged to plan ahead for any anticipated absences or technical difficulties and have contingency plans in place.

### **Time Commitment**

To succeed in this course, students should be aware of the time commitment required. Refer to the bullets below for an estimate of the average expected time spent on class-related work:

- Outside class per class week: 9 hours (minimum), 12 hours (maximum)
- Total Term Expectation: 144 hours (minimum), 192 hours (maximum)

Your commitment to these requirements and policies will contribute to a successful and enriching academic experience. Should you have any questions or concerns, please do not hesitate to reach out for assistance.

## **GRADING**

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

Total points corresponding to the final letter grades

- A: 180-200 points
- B: 160-179 points
- C: 140-159 points
- D: 120-139 points
- F: 0-119 points

Weights of the assessments in the calculation of the final letter grade.

Example:

Essay's	35%
Discussions	25%
Final Project	40%
TOTAL	100%

### **East A&M Supports Students' Mental Health**

The Counseling Center at East A&M, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit [www.etamu.edu/counsel](http://www.etamu.edu/counsel)

### **AI use policy [Draft 2, May 25, 2023]**

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their

instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
