COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students must have an adequate working knowledge of the learning management system, Leomail, Microsoft Office Suite, Exemplify, ProjectConcert, and ATI online products.

Instructional Methods

This is a self-paced course. While the faculty will provide guidance and consultation, the student is responsible for identification of learning needs, self-direction, seeking consultation, and demonstration of course objectives.

The syllabus and schedule are subject to change.

Student Responsibilities/Tips for Success in the Course

- Logging into the course website and email regularly for faculty communication (especially the night before class/clinical)
- Updating semester calendar with communicated changes
- Regular study (recommend a minimum 2-3 hours study/course credit hour per week). For example: 3-credit course = 6 to 9 hours study time/week.
- Attendance at all class meetings, clinical, seminars and simulations
- Review and remediation of examinations.

Grading

Final grades in this course will be based on the following scale and assessments.

A = 90%-100%

B = 80%-89%

C = 75%-79%

D = 60%-74%

F = 59% or below

A minimum grade of 75% is required to pass the course. All assignments must be completed and submitted before final grades will be released.

ASSESSMENTS

Assignment	Weight	SLO
Module Pre-Tests	10%	1,2,3,4,5
Module Post-Tests	40%	2,4
Culminating Project - 👤👤👤		1,2,3
• EBP Process Poster	25%	1,2,3,4,5
• EBP Process Journal	25%	1,2,3,4,5
Total	100%	

👤👤👤 = Group assignment

ASSESSMENT DESCRIPTIONS

• Module Pre-Tests

- The purpose of module pre-tests is to assess your current understanding, application, analysis, and evaluation of research and Evidence-Based Practice (EBP) concepts related to the module competency.
- Students will take pre-tests in D2L. Pre-tests are marked as complete or incomplete. To earn the 10% score assigned to this course component, each pre-test must be marked as complete.

The syllabus and schedule are subject to change.

- **Module Post-Tests**

- The purpose of module post-tests is to assess your final understanding, application, analysis, and evaluation of research and Evidence-Based Practice (EBP) concepts related to the module competency.
- Post-tests can include, but not be limited to one or more of the following examples: traditional assessments (tests), projects, written assignments, or a combination of activities.
- You will have 3 attempts to demonstrate competency as defined as a score of at least 75% on the post-test.
- Students will submit post-tests in the LMS in the format directed by the course faculty.

- **Culminating Project: EBP Process Poster Presentation:**

- The purpose of the culminating project is to demonstrate mastery of all course competencies in a significant, self-directed assignment that requires you to synthesize and apply the knowledge and skills you have acquired during the course.
- The project is a real-world, hands-on demonstration of mastery of the knowledge, skills, and attitudes related basic research concepts and the EBP process.
- Students will work in groups of 2-3 to review evidence guided clinical practice or current health issues. Each group will submit the assignments in the specified file format. (PowerPoint for the poster, Word document for the journal) via the LMS.
- This assignment requires formal, scholarly writing using APA formatting.
- The grading rubric is available in the LMS.

Course Specific Procedures/Policies

Assignment Submissions:

All class and clinical assignments must be submitted on time. If an extension is needed, students must request the extension before the posted due date/time. An assignment extension request will be approved or denied at the discretion of the course coordinator.

Unexcused late assignments will be penalized 10% per day for each of the first two days overdue; on the third day, the grade will be assigned as 0%. Communication on these matters is the student's responsibility. Multiple instances of late clinical assignments will result in receipt of a Student Performance and Behaviors Evaluation Form and, possibly, failure of clinical/course.

All documents submitted online are to be in .docx, .rtf, or .pdf format. No other formats will be accepted (JPEG, GIF, etc.). Assignments need to be submitted in a maximum of one document per assignment. Failure to follow these guidelines will result in a grade of "0" on the assignment.

The syllabus and schedule are subject to change.

BSN Program Student Guidebook

Specific information regarding the nursing program and current policies and procedures can be found in the current BSN Program Student Guidebook located in the Nursing Success Course in the LMS.

Students are responsible for reviewing, understanding, and complying with the policies and procedures provided in the student guidebook.

Group Work

All members of the group will receive the same grade on any group work. However, a student can be removed from his/her team if the other students in the group come to the instructor and report that a student is not doing his/her fair share of the work. If that happens, the instructor will notify the student in writing. The student will then be responsible for doing the assignment on his/her own. It is expected that the group will make the attempt to resolve the situation within the group before instructor intervention.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may cause the instructor(s) to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a ETAMU campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here: <https://community.brightspace.com/support/s/contactsupport>

Interaction with Instructor Statement

Communication between faculty and students is important for success. If a face-to-face meeting is desired, an appointment should be made in advance. Students will be treated with respect and are expected to communicate likewise.

The nursing department faculty and staff follow and expect students to follow the chain of command in all academic matters. If problems arise in a course, the student should first contact the instructor, then proceed as needed to the course coordinator, then the program coordinator, then the department head for nursing, and finally the college dean.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](https://www.tamuc.edu/office-of-student-rights-and-responsibilities/student-code-of-conduct/).
<https://www.tamuc.edu/office-of-student-rights-and-responsibilities/student-code-of-conduct/>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum:

Artificial Intelligence (AI) Use Policy

East Texas A&M acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
