COURSE INFORMATION

Course Description

Elicits an emerging identity as a professional nurse. Formulates a personal philosophy of nursing based on the nursing metaparadigm. Explores ethical and legal issues frequently encountered by the professional nurse across the continuum of care. Implements ethical decision-making models in case scenarios. Examines rules and regulations governing the practice of nursing in Texas in disciplinary case studies. Discusses licensure eligibility requirements of new graduates.

Student Learning Outcomes

By the end of the course, the student will be able to:

1. Develop a personal philosophy of nursing based on the nursing metaparadigm and self-reflection that demonstrates an emerging professional identity.
(PLO 2, 5; AACN Essentials 1, 10)
2. Describe state and national statutes, rules, and standards that define and authorize professional nursing practice
(PLO 2, 5; AACN Essentials 2, 9).
3. Analyze moral, ethical, and legal issues that impact nursing practice across the continuum of care.
(PLO 1, 2, 3, 4, 5, 6; AACN Essentials 1, 2, 3, 4, 5, 6, 7, 8, 9, 10)

4. Discuss the implications of healthcare policy on issues of access, equity, affordability, and social justice across the continuum of care. (PLO 2, 4, 5; AACN Essentials 3, 7, 9)
5. Value the pursuit of nursing excellence and lifelong learning. (PLO 1, 5, 6; AACN Essentials 2, 9, 10)

COURSE REQUIREMENTS**Minimal Technical Skills Needed**

Students must have an adequate working knowledge of the learning management system, Leomail, Microsoft Office Suite, Exemplify, ProjectConcert, and ATI online products.

The syllabus and schedule are subject to change.

Instructional Methods

Teaching methods include lecture, seminar, discussion, small group work, independent study of texts and library resources, computer-assisted instruction, audio-visual aids, student presentations, and assignments. While the faculty will provide guidance and consultation, the student is responsible for identification of learning needs, self-direction, seeking consultation, and demonstration of course objectives.

Student Responsibilities/Tips for Success in the Course

- Logging into the course website and email regularly for faculty communication (especially the night before class/clinical)
- Updating semester calendar with communicated changes
- Regular study (recommend a minimum 2-3 hours study/course credit hour per week). For example: 3-credit course = 6 to 9 hours study time/week.
- Attendance at all class meetings, clinical, seminars and simulations
- Review and remediation of examinations.

Grading

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 75%-79%
- D = 60%-74%
- F = 59% or below

A minimum grade of 75% is required to pass the course. All assignments must be completed and submitted before final grades are released.

ASSESSMENT DESCRIPTIONS

• **Personal Philosophy of Nursing Statement**

The purpose of creating a personal philosophy of nursing statement is to identify intrinsic beliefs and goals within the nursing profession. Defining a philosophy

The syllabus and schedule are subject to change.

provides a deeper connection to those beliefs. A personal philosophy helps shape the professional self and provides direction for attaining skills needed for a successful, meaningful career. This assignment is intended to be the start of a life-long, professional review of attitudes, beliefs, and values regarding key components of nursing practice and patient care.

Students will write a personal philosophy using the criteria from the philosophy rubric to discuss their beliefs, attitudes, and values regarding the four domains of the nursing metaparadigm (person, environment, health, nursing).

Before submitting the completed philosophy statements, students will partner with an assigned peer to provide written feedback regarding how their statements meet the grading criteria. Peer feedback should be considered when revising the final statements for submission. (Peer partners will be assigned by lottery.)

The assignment submission will include 3 separate documents:

1. final philosophy statement (Word Document Only)
2. written feedback from a peer reviewer (signed & dated) (PDF Document Only)
3. written feedback to a peer (signed & dated) (PDF Document Only)

NOTE:

The level of competency for this assignment is 75%. If a score of 75% is not met after the initial submission, the assignment must be revised and resubmitted until the benchmark is met.

The rubric for the evaluation of this paper is in the Rubric area of the syllabus and in the LMS assignment.

- **Population-Based Ethical Dilemma Presentation (Group²⁻³)**

In this assignment, a group of students presents ethical issues encountered by nurses in a specific patient population and applies an ethical decision-making model in a simulated patient case.

Student groups will develop a 20-minute presentation of common or potential ethical issues associated with the assigned patient population; pose an ethical dilemma for a simulated patient; describe the ethical decision-making model used by the group in the scenario and the rationales for the choice; and guide the class through each step of the model to reach a final decision.

The presentation will be submitted for grading via the LMS assignment link prior to presentation in class. The rubric for the evaluation of this presentation is in the Rubric area of the syllabus and the LMS.

The syllabus and schedule are subject to change.

- **Disciplinary Action Case Presentation (Group³⁰⁰⁰)**

The purpose of this activity is for students to acquire an understanding of the Texas Nursing Practice Act and the impact and ramifications of individual nurse violations of the Act. Students will work in groups to complete a paper on the disciplinary action taken by the Texas Board of Nursing on an assigned Registered Nurse.

The presentation should be no more than 30 minutes in length. The presentation will be submitted via the LMS Assignments tab by the due date on the course calendar. The case will be presented during a class session.

The rubric for the evaluation of this presentation is located in the Rubric area of the syllabus and the LMS.

- **ANA Scope & Standards of Practice Poster (Group³⁰⁰⁰)**

The purpose of this group assignment is to review the Nursing: Scope & Standards of Practice and apply examples of nursing actions that demonstrate competence in the practice and professional performance of a novice nurse.

Each group will create educational and engaging electronic posters for two professional performance standards in accordance with grading rubric in the Rubric area of the syllabus and the LMS. Posters will be shared in class on the date designated on the course schedule.

- **Mock Nursing Jurisprudence Exam (NJE)**

Successful completion of the NJE is required by the BON for licensure in Texas. The official exam consists of 50 psychometrically validated questions designed to test an applicant's knowledge relating to board statutes, rules, position statements, guidelines, disciplinary sanction policies, frequently asked questions, and other resource documents accessible on the board's web page relating to the regulation, licensure, and practice of nursing under the following categories:

- (A) Nursing Licensure and Regulation in Texas
- (B) Nursing Ethics;
- (C) Nursing Practice;
- (D) Nursing Peer Review;
- (E) Disciplinary Action.

To pass the NJE, 75% of the questions must be answered correctly.

The mock exam consists of 50 questions from various resources available on the BON website. A minimum score of 75% is required to successfully complete the assignment.

The syllabus and schedule are subject to change.

COURSE SPECIFIC PROCEDURES/POLICIES

Assignment Submissions:

All class and clinical assignments must be submitted on time. If an extension is needed, students must request the extension before the posted due date/time. An assignment extension request will be approved or denied at the discretion of the course coordinator.

Unexcused late assignments will be penalized 10% per day for each of the first two days overdue; on the third day, the grade will be assigned as 0%. Communication on these matters is the student's responsibility. Multiple instances of late clinical assignments will result in receipt of a Student Performance and Behaviors Evaluation Form and, possibly, failure of clinical/course.

All documents submitted online are to be in .docx, .rtf, or .pdf format. No other formats will be accepted (JPEG, GIF, etc.). Assignments need to be submitted in a maximum of one document per assignment. Failure to follow these guidelines will result in a grade of "0" on the assignment.

BSN Program Student Guidebook

Specific information regarding the nursing program and current policies and procedures can be found in the current BSN Program Student Guidebook located in the Nursing Success Course in the LMS.

Students are responsible for reviewing, understanding, and complying with the policies and procedures provided in the student guidebook.

Classroom Policies

1. Class Cancellation: If a class is canceled, the student is expected to do the readings and complete the objectives for that day. The content will still be included on examinations. The material in this syllabus and dates identified in the Course Calendar are subject to change.
2. Class attendance is expected. The students should notify course coordinator in advance of any absence.
3. Exam dates are listed in each course syllabus, and the student is expected to be present for exams. If a student will be absent, the course coordinator must be notified in advance. Failure to do so may result in the student receiving a zero for the missed exam or quiz. Review the BSN Student Guide for the exam absence process.
4. As an adult learner and responsible professional, the student is responsible for reading and completing assignments prior to class and for being prepared to participate in discussions over the assigned material. It should not be expected that all material would be covered in class. Students are expected to come to class prepared.

The syllabus and schedule are subject to change.

Group Work:

All members of the group will receive the same grade on any group work. However, a student can be removed from his/her team if the other students in the group come to the instructor and report that a student is not doing his/her fair share of the work. If that happens, the instructor will notify the student in writing. The student will then be responsible for doing the assignment on his/her own. It is expected that the group will make the attempt to resolve the situation within the group before instructor intervention.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may cause the instructor(s) to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Class Conduct

Turn off or silence and put away all electronic devices before entering the classroom, lab, sim hospital, or clinical setting. No obscene or vulgar language will be permitted. Faculty reserve the right to drop a student for violations of any student conduct rules listed in the student guide.

Interaction with Instructor Statement

Communication between faculty and students is important for success. If a face-to-face meeting is desired, an appointment should be made in advance. Students will be treated with respect and are expected to communicate likewise.

The nursing department faculty and staff follow and expect students to follow the chain of command in all academic matters. If problems arise in a course, the student should first contact the instructor, then proceed as needed to the course coordinator, then the program coordinator, then the department head for nursing, and finally the college dean.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

Artificial Intelligence (AI) Use Policy

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
