### **Course Procedures and Policies**

1. **Attendance Policy:** Attendance is critical for your success in this course. Students are expected to be present in each class, for the entire class period. If you arrive 15 minutes late or leave more than 15 minute before class ends, it will be considered an absence. **After the fourth absence of the semester, the instructor may lower the student's final semester grade by one letter grade for each subsequent absence.** No distinction will be made between excused and unexcused absences. Please contact the instructor in advance of any absence.

**A student who misses a class or is late for class is responsible for any material discussed and any announcements made during class.** Demonstrations will not be repeated for excused or unexcused absences. The student is also responsible for making up the missed work time.

### **Studio culture and cell phone usage**

For the next 16 weeks we will be working together in the shared space of the studio. You are expected to treat your instructor and your classmates with respect at all times. In this spirit, **cell phones should be muted during class.** If you must receive a call during class time please leave the studio before answering it. To be considerate of others working in the studio there should be no phone conversations, text messaging, movie watching, etc. in studios. Online web searches related to course assignments may be done during studio work time, not during lectures and demonstrations. You may also use your phone to document your work.

For the health and safety of everyone, please clean up your workspace, table, floor and all tools and equipment that you used before you leave the studio. **Throwers**

*The syllabus/schedule are subject to change.*

**should mop around their wheel at the end of every work session. Hand builders should mop around their table.** Leave the space cleaner than you found it.

**Headphone policy:** You may wear headphones while you are working in the studio during class time. For the safety of yourself and consideration of your classmates, the volume must be low enough that you can still hear what is happening in the studio. Also, you are still responsible for any announcements that are made while wearing headphones. **You may not wear headphones during lectures, demonstrations or critiques.**

Video/audio recording is prohibited without permission.

**Firing policy:** Smoking/drug paraphernalia, including but not limited to pipes, ashtrays, images or slogans will not be fired.

**Extra Projects:** You may fire up to 8 cups (or the equivalent) that you make outside of class projects. You don't have to make cups. You can make 8 smaller pieces or one larger piece or a few medium sized works that are equivalent to about the amount of 8 cups. (You can practice throwing all you want. Only fire your best work.) The last day to work in clay is also the deadline for extra projects to be finished. After the final critique there will be no more firings. Broken or cracked work will not be fired.

## **Safety**

Always wear a mask when working with dry materials and while spraying glaze. If you are pregnant you will need to take caution in the glaze area and be sure to wear gloves while glazing. Everyone should wear gloves when working with glazes containing a high metal content and glazes marked "Not Food Safe". For safety while sanding and sweeping we recommend you wear a mask. You may want to purchase a P100 Particulate Respirator Mask.

There is no roller skating, roller blading or skate boarding in the studio.

## **Syllabus Change Policy**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.
