Course Description: Advanced Auditing course is an intensive study of professional conduct, auditing standards, auditor's liability, reports, and internal auditing. This course focuses on advanced auditing principles as related to publicly traded organizations, the general public, and the audit firm in general. For each class, the presentation and class discussion will incorporate the related accounting principle, the appropriate auditing standards and applicable professional standards. The importance of ethical accounting practices will be emphasized throughout the course.

Auditing and Forensic Accounting Certificate

The graduate certificate in Auditing and Forensic Accounting will equip students to gain certifications offered by the Institute of Internal Auditors (IIA) and the Association of Certified Fraud Examiners (ACFE). The twelve semester hours (4 courses) of coursework is eligible to meet requirements for the Master of Science in Accounting (MSA) program should a student wish to pursue it. ACCT 527 & ACCT 562 are in the core curriculum and the remaining courses would meet electives for the MSA.

AI USE POLICY [DRAFT 2, MAY 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
