

EAST TEXAS A&M

UNIVERSITY

ART2326 (Section 01E): Sculpture I, 81293

COURSE SYLLABUS: FALL 2025

EAST TEXAS A&M UNIVERSITY

Instructor: Josephine Durkin

Office Location: Sculpture Lab (ASL 119)

Office Hours: Tuesdays and Thursdays by Appointment

Office Phone: 903.886.5208 (Main Office Phone)

Email: Josephine.Durkin@etamu.edu

Class Information

Fall 2025: 8/25/2025 through 12/12/2025

Credits: 3.00

Meeting times: Tuesdays and Thursdays, 11:00am-1:50pm

Location: Art Sculpture Lab (ASL 119)

Preferred Form of Communication: Email

Response Time: Usually 1 - 2 business days. Please make sure that you include (cc) my GA (azhumageldi@leomail.tamuc.edu) on each email once my GA has been introduced to the class.

Course Description

This course provides an introductory exposure to working with a variety of materials, tools and techniques, including paper, fabric, paper and fabric dyeing, mold making, woodworking, sewn construction, mold making and casting. Installation methods will also be discussed, including individual and group methods and strategies. Lectures highlighting artists who use related materials and methods in their work will be highlighted, as well as the connection between material, scale and meaning. Students will learn through shorter, more specific projects, and then use this material and technical knowledge to create their own work in longer projects. Individual projects will vary depending on personal interests and ambitions.

The syllabus/schedule are subject to change.

Student Learning Outcomes

At the conclusion of this course the student will be able to:

- Discuss contemporary artists who utilize sewing, woodworking and casting
- Discuss the relationship between material and meaning
- Discuss the relationship between artists, viewers and affect
- Demonstrate knowledge of hand sewing, paper and fabric constructions
- Demonstrate knowledge of woodworking
- Demonstrate knowledge of flexible mold making, plaster and resin casting
- Discuss strategies involving processes, materials and installation methods
- Discuss art formally and conceptually
- Demonstrate knowledge about quality craftsmanship
- Demonstrate the ability to respond to, and talk about their work and the work of others
- Demonstrate the importance of documentation through a professional website of their work
- Demonstrate the ability to document the process of making the work they create for this class

Course Requirements

Textbooks, Technologies and Materials

Textbook(s) Required: No textbook is required.

Software Required: You will need a camera or cell phone to take photographs (and possibly video) of your work. You will need to use either a free or paid for website host for your website. Options will be discussed. Please contact the instructor and GA if you have questions or concerns about using the technology.

Suggested Text Books and Resources

- Gallery and museum websites
- Art 21 (free, online videos)
- Other online research (technical and material)

Required Materials

Individual tools:

Plastic tote to store materials (no need to buy these - we have them for you!)

A good pair of sharp scissors (adult size)

X-acto knife

Utility knife

Pencils and pens

Materials will be provided for demos and small, intro projects. Materials for individual,

The syllabus/schedule are subject to change.

sculptural works will be purchased by students, and will vary depending on project needs.

Write your name on all your tools and supplies. Make sure to label your materials and projects when storing them in the storage area.

Instructional Methods

This course is 16 weeks long. It will consist of:

Lectures

Discussion

Demos of materials and techniques

Short-term projects

Three, student-driven sculptural projects

Class workdays and individual, project meetings

Installation of your work, class critiques, and a final, class exhibition Website portfolio

In-progress, constructive feedback throughout the course

Expectations

1. Working in and outside of class is required. Expect to spend at least 6 hours per week outside of class. Access to the studio at night and on weekends (with the exception of holidays) will be through the swipecard system.
2. Completion of required work by the critique dates is required.
3. Criticism and discussion are important aspects of artistic activity and development. Attendance and active, thoughtful verbal participation at all critiques is mandatory.
4. Participation in class activities, including installation, critique, meetings and clean-up is required. Making art often requires teamwork and group problem solving – both technically and conceptually!
5. Students are expected to engage in personal research, depending on project needs. If possible, it is in the best interest of each student to visit galleries and museums in the DFW area.
6. Students are expected to attend all exhibitions in The University Gallery as well as other events hosted by the Department of Art.
7. General Studio Rules:

Clean up at the end of each class.

Specific safety rules will be given at the beginning of the semester. Grading

Final grades in this course will be based on the following scale: 90-100% A | 80-89% B | 70-79% C | 60-69% D | 0-59% F

The syllabus/schedule are subject to change.

Assignment Grading Details:

Grading is based on a completion of course assignments, quality of individual technical and critical development, personal commitment and ability to work in a community studio setting. Personal commitment involves regular attendance, consistent effort, following demos and instructions, completion of work and participation in group critiques, as well as the willingness to try new things and take creative risks. This includes technical and material problem solving. In addition to learning from me, students learn from each other as well as outside of class, safely, on their own- through the process of learning by doing, trial and error. Successfully finding out what does and doesn't work is valuable – and should be shared with the group to add material and technical knowledge to our growing “toolboxes”.

Assignments: 80% Class participation: 20%

Late Work:

Assignments may not be turned in late unless there is a legitimate documented emergency. You must contact me before the due date and ask for an extension. I will consider each request on a case-by-case basis. Late assignments will automatically lose 20% of the grade and must be submitted by the final critique.

Assignment Submission & Format:

All work is due completed by the due date listed in the assignment. Images of your finished projects should be posted in the assignment in D2L, within a week of the critique, to receive full credit. Turning assignments in via D2L is not a substitute for turning them in in-person. Assignments will not be graded in D2L unless they are first turned in in-person. Due dates may change if needed.

Assessments

Projects will be graded as follows:

A (Excellent) will be given to ambitious projects that demonstrate superior conceptual, expressive, and technical abilities. A sustained and committed work ethic must be evident.

B (Good) will be given to those projects that complete the requirements of the assignment in a creative manner, display a good level of technique, and in which a good work ethic is evident.

C (Average) is given to those projects that satisfy the specifications of the assignment on an adequate level. Reasonable effort has been demonstrated in order to complete the assignments.

The syllabus/schedule are subject to change.

D (Passing - Minimum) will be given to those projects which attempt to address the assignments but which fall short in understanding, creativity of solution, quality of technique, and effort.

F (Failure) is given to projects that show a complete lack of understanding, creativity, and effort.

Note: How-to, intro assignments will not be graded to reflect conceptual strength. They function as technical and material introductions to various processes and strategies.

Course Procedures and Policies

Attendance Policy

Attendance is critical for your success in this course. Students are expected to be present in each class, with materials ready to work. Demos and critiques will usually start about 20 minutes after the start of class – so make sure to not miss a demo or critique. Due to the physical nature of the environment and processes, clean-up as well as lab set up (covering tables, etc. for demos) is a team effort. Missing this teamwork will negatively affect your grade. You may not miss a critique unless it is arranged in advance, or due to documented emergencies. No distinction will be made between excused and unexcused absences. Please contact the instructor in advance of any absence. Students are expected to communicate with each other, as well as the GA, to catch up on homework and demos. Demos and homework direction will not be repeated in their full capacity. Should you need to miss a class, it is your responsibility to contact other students and the GA, in order to keep up with the homework, projects and information provided in class.

Studio culture and cell phone usage

We will be working together in a shared space. Each student is expected to treat other students, the instructor and GA with respect. Cell phones should either be turned off or muted. In the case that you are expecting a call related to a family emergency, please let me, as well as Assel know at the beginning of class. In this instance, you are expected to step outside of the class to take the call before answering it. Should you need to do online research for your current projects in this class, please let me and Assel know. Students are not permitted to engage in online research during lectures and demonstrations.

For the health and safety of everyone, please clean up your workspace, table, floor and all tools and equipment that you used before you leave the studio. Good life, very much appreciated, life rule of thumb: Always leave the studio (or any other space) cleaner than you found it!

The syllabus/schedule are subject to change.

Headphones: You may wear headphones when working on your individual, long-term projects, but may not wear them during announcements, lectures, demos, discussions, clean-up, group set-up or critiques. This is a safety issue, and is necessary for your progress in this class.

Video and audio recording is prohibited during this class. In certain circumstances, please discuss and gain permission in advance (documenting certain projects and processes for reference and presentation).

Respect for Diversity

Each student is welcome, and should also *feel* welcome in this class. Everyone is different, as well as embraced (gender, age, race, orientation, etc.), and offers their unique life experiences, perspectives and histories. This adds to our shared learning environment, as well as the work that we make and discuss! Should you have any concerns, please let me know so I can assist. I want to make sure that each student feels welcome, safe and valued in my class.

Safety

Always wear closed-toe shoes and studio-appropriate clothes that you can work in. It is important that your body be protected from certain tools and materials. Athletic wear (shorts, crop tops, flip flops, crocs with holes, etc.) or other minimal clothing is not encouraged for safety reasons. Jeans, work pants, tennis shoes, work boots – clothes that provide coverage that you feel comfortable getting dirty (mold making and casting materials can be messy!) are important to wear. Aprons are great for protecting clothing, and you can also leaving a set of studio clothes in your plastic tote should that work best for you.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Technology Requirements LMS

All course sections offered by East Texas A&M University have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

<https://community.brightspace.com/s/article/Brightspace-Platform-Requirements>

The syllabus/schedule are subject to change.

LMS Browser Support:

https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

Access and Navigation

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Should you have a personal computer issue, please problem solve as needed. This may include reaching out to a friend or family member to borrow a computer, using computers available at the local library or accessible computer labs on campus, accessing wifi at Starbucks or on campus, etc.

Communication and Support

If you have any questions or are having difficulties with the course material, please contact your Instructor (and the GA).

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

<https://community.brightspace.com/support/s/contactsupport>

University Specific Procedures Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx).
<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum:

<https://www.britannica.com/topic/netiquette>

ETAMU Attendance

The syllabus/schedule are subject to change.

For more information about the attendance policy please visit the [Attendance](#) webpage and [Procedure 13.99.99.R0.01](#).

Nondiscrimination Notice

East Texas A&M University will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry Statement

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in East Texas A&M University buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and East Texas A&M Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

For a list of locations, please refer to the [Carrying Concealed Handguns On Campus](#) document and/or consult your event organizer.

Web url:

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all East Texas A&M campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

A&M-Commerce Supports Students 'Mental Health

The Counseling Center at East Texas A&M, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

The syllabus/schedule are subject to change.

Department of Art, Health and Safety Guidelines: All students enrolled in face-to-face art courses are required to comply with the procedures and policies of the Department of Art's Health and Safety Guidelines. The Guidelines cover activities in all East Texas A&M art facilities on both the main campus and off-campus sites. Please report any safety issues immediately to your instructor(s), per health and safety guidelines outlined, studio/lab assistant, or the Department of Art, studio technician & health/safety liaison.

Course Calendar:

Our first class is on Tuesday, August 26th.

Project names are listed in the Activity / Assignment section of D2L.

Sample Schedule (Subject to Change)

Tuesday, August 26th: Welcome!

Thursday, August 28th: Studio / Demo: Introduction to Paper Fibers and Hand Sewing

Tuesday, September 2nd: Sewn, paper pillow due

Thursday, September 4th: Introduction to Sewn, Fabric Constructions

Tuesday, September 9th: Hand sewn pin cushion due

Thursday, September 11th: Intro to Custom Pattern Making

Tuesday, September 16th: Shapeshifters, Part 1 due

Thursday, September 18th: Shapeshifters, Part 2, due

Tuesday, September 23rd: From Familiar to Unfamiliar via Sewn Constructions

Thursday, September 25th: Studio

The syllabus/schedule are subject to change.

Tuesday, September 30th: Studio

Tuesday, October 7th: Shapeshifters Animation

Thursday, October 9th: Intro to Woodworking

Tuesday, October 14th: Studio

Thursday, October 16th: Due: Floating Pedestal Shelf

Tuesday, October 21st: Intro to Casting with Plaster and Flexible Molds

Thursday, October 23rd: Studio

Tuesday, October 28th: "More is More" is due.

Thursday, October 30th: Studio: Intro to Cold Cast Bronze with resin

Tuesday, November 4th: Studio, Individual Meetings , Intro to "Close-Up"

Thursday, November 6th: Studio

Tuesday, November 11th: Studio

Thursday, November 13th: Studio

Tuesday, November 18th: Critique

Thursday, November 20th: Demos / Website Review

Tuesday, November 25th: (No in-person class, work from home on website project)

Thursday, November 27th: (No class - Thanksgiving Break!)

Tuesday, December 2nd: Present website projects in class.

Thursday, December 4th: Individual meetings to review grades.

Tuesday, December 9th: Final Exam (Group Lab Clean Up)
Additional time for individual meetings if needed.

The syllabus/schedule are subject to change.
