COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings

There is no textbook for this course. We be reading and discussing academic articles that may be accessed through the university library. You should NOT pay for any of these articles.

If you are unfamiliar with some cognitive science principles and would like a text to reference, here are two open textbooks:

<https://oercommons.org/courses/cognitive-psychology-3>

[https://en.wikibooks.org/wiki/Cognitive Psychology and Cognitive Neuroscience](https://en.wikibooks.org/wiki/Cognitive_Psychology_and_Cognitive_Neuroscience)

For each module, the readings will be posted at the beginning of the module.

Course Description

Cognition is extraordinarily central in every human's life. Cognitive approach has widespread influence on all other areas of psychology. Your mind is an impressively sophisticated piece of equipment. As the owner of this equipment, do you want to check out user's manual as you would do with your favorite gadgets?

The syllabus/schedule are subject to change.

This course offers an overview of cognitive psychology: basic concepts and theories, research methods, and applications in the real world.

Student Learning Outcomes (SLOs)

- 1) Students will enhance reading prowess by diving into textbook sections, unlocking the essentials of concepts, examples, and evidence.
- 2) Students will appreciate the metaphors and the approaches to the scientific understanding of human mind.
- 3) Students will appreciate and to some extent follow the discourse appropriate to how cognitive psychologists communicate about the scientific study of human mind.
- 4) Students will gain an overview of how psychologists test, interpret, and demonstrate concepts, theories and principles in empirical data.
- 5) Students will nurture scientific thinking. This is an approach to information that combines a high degree of *skepticism* (questioning what “everybody knows”), followed by *objectivity* (using empirical data to separate fantasy from reality) and *rationalism* (practicing logical reasoning).

COURSE REQUIREMENTS

Minimal Technical Skills Needed

You need to be able to use the following.

- Microsoft Office or equivalent
- D2L
- PDF
- Flip

Instructional Methods

This course is a face-to-face class. During our lecture, we will focus on deepening your understanding of the important concepts and theories through lectures, demonstrations, and class discussions. Prior to each week’s lecture, you will be expected to complete the reading materials before the class.

Student Responsibilities or Tips for Success in the Course

- 1) Check and read class emails promptly for announcements, updates, clarifications, etc.
- 2) Take notes as you listen to lectures, read the assigned parts of the textbook to check if your listening comprehension matches with the textbook descriptions, and fill in the missing pieces.
- 3) Quiz yourself often. Can you define a concept in your own words? Can you answer 3 or 4 questions of the textbook practice questions correctly?

The syllabus/schedule are subject to change.

- 4) Review the materials on a regular basis.
- 5) Complete assigned coursework on time.
- 6) Please contact me when you have questions. The material is difficult, and no one learns everything perfectly the first time through. This class, and your time, is too important for you to spend time getting frustrated instead of learning

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Weights of the assessments in the calculation of the final letter grade:

| | |
|-------------------------------|------|
| Participation | 30% |
| Paper | 20% |
| Midterm and Final Exam | 30% |
| Annotated Bibliography | 20% |
| TOTAL | 100% |

Makeup exams and assignments

If you need an extension on this assignment for any reason, you must let me know **before** the deadline. Late assignments will be accepted for 10% off per day late.

If you are traveling and representing the university (e.g., band members, athletes, etc.) you need to request accommodations **BEFORE** the exam or assignment is due, not after.

If you encounter any technical problems when you take any timed tests or assignments online, take screenshots and email me immediately for potential makeups.

Assessments

Unless authorized by instructor, students are expected to complete all course assignments without assistance from any source, including artificial intelligence such as ChatGPT.

The syllabus/schedule are subject to change.

1. Participation 30%

Every week, you will receive a participation grade. Your participation grade will consist of the following components:

- Perusall Comments
 - Every article for the course will be posted on *Perusall*. On Perusall, you will be able to leave comments on the readings and engage with your peers.
 - You will be required to leave at least one comment on each paper on Perusall.
- Discussion Questions
 - For each article in the course, you will be required to submit a discussion question. I will take the discussion questions and organize them for...
- Discussion Board
 - I will take the organized discussion questions and put them on a board for the class to discuss. You will be required to make at least 3 posts to the discussion board for the week.

2. Annotated Bibliography 20%

At the end of the semester, you will submit an annotated bibliography including all the articles we discussed in the course. The purpose of this assignment is to give you a document you can reference later as you write papers and/or do work for other courses. It is recommended you add to this bibliography throughout the course immediately after reading each article.

3. Paper 20%

At the end of the course, you will submit a final paper. More information will be provided about this paper at a later time.

4. Midterm and Final Exam 30%

These will be essay-based exams. While the final exam is not designed to be cumulative, it may draw on some general ideas for the first half of the course.

All assignments are due at 11:59PM on the day they are due.

| <u>Week</u> | <u>Topic</u> |
|-------------|--------------------------------------|
