Office Hours: Online by appointment

Office Hours: Online by appointment

Preferred Communication: Please send emails through the MyLeo Online message system only. This will let me know which class you are in and will keep the class more organized. Always make sure the prefix of the course is listed as an example: ECO 2301 or ECO 2302.

Course Information: We will be using an open-source macroeconomics textbook. The link is: <https://open.umn.edu/opentextbooks/textbooks/33>

D2L Link: myleonline.tamuc.edu/d2l/home

University Catalogue Description: Principles of Macroeconomics. Three semester credit hours.

Introduces the student to the workings and interrelationships of the U.S. and world economics. Principles of economic analysis include measurement of aggregate economic activity, national income determination, money and banking, monetary and fiscal policy, and business fluctuation. Emphasis is given to analyzing real world problems such as poverty, inflation, unemployment, and economic instability.

Course Objectives / Student Learning Outcomes:

Successful students will be able to accomplish these objectives toward understanding the economy:

1. Explain how choices and trades improve welfare.

2. Be able to use the supply and demand model to describe individual decision makers and the economy as a whole.
3. Be able to calculate features of the economy given a simplified dataset. Be able to discuss the limitations and benefits of using each construct to describe the well-being of the economy.
4. Model the effects on society for changes in macroeconomic variables.

Successful students will be able to accomplish these objectives as critical thinkers:

- A. Identify assumptions used in models
- B. Identify information and data that is relevant to an economic problem.
- C. Be able to identify alternative solutions to an economic problem.
- D. Be able to relate and explain economic topics to economic models.
- E. Identify the societal and/or civic issues that are relevant to an economic problem or event.

Course Requirements and Grading: Opportunities to Perform: Throughout the semester students will have the opportunity to earn and accumulate points up to a maximum of 600 total points as follows:

- Four exams @ 100 points each
- HomeWorks: 100 points
- Keynesian Model Spreadsheet: 100 points.
- Total Semester Points of 600

Generally, there will be no make-up work for missed tests, assignments, or other requirements except in cases of documented emergencies. Should such occasions arise, please contact me immediately and, ideally, before the required work is due.

Final grades in this course will be determined on the total points earned and based on the following scale:

A = 90%-100% B = 80%-89% C = 70%-79% D = 60%-69% F = 59% or below

Instructional Methods

This is an online class and requires the student to be more **self-directed**. Please make sure you have a working microphone. You are responsible for all the material in the chapters assigned whether I discuss that material in the Webinar or NOT. If you think this class will take less time and be easier than a face to face you are mistaken indeed. **The Webinar will be held M,W,F from 9:20 to 10:10 in D2L, Zoom. All sessions are recorded but you are expected to attend the Webinars "live". I expect you to turn your camera's on and have a working microphone.**

You will need to study every week. No kidding. There is just too much material to cover to do otherwise.

To connect to the Webinars, you must have a cable, DSL, or high-speed modem connection. Speeds of 5 megs or more work best. Public Wi-Fi connections tend to be sub-optimal. Chrome or Firefox are the browsers of choice. Also, since we are using the Voice Over IP system you will need a headset with earphones and a microphone. Using your computers separate mic and speakers creates too much feedback in the system. Typing is the most **inefficient way** to communicate and will significantly degrade your learning experience. A headset combo can be purchased at Walmart or similar stores for around \$20.00.

Student Responsibilities or Tips for Success in the Course

You are responsible for reading the syllabus. This is an interactive class NOT a chat room, e-mail or web page posting class. While that may be how some of your other classes operated not this class. You must attend live or watch the recorded sessions each week. Do not get behind. I will show you how to copy a link into your browser to watch the recorded sessions. Do not download them or view them in D2L, YouSeeU.

This class has a once weekly 3-hour Webinar offered on Tuesday night from 6:30pm CST to 9:30pm CST. You will be required to participate live or watch the recorded sessions. A D2L(our LMS) section has been created for all the Webinars and you have been enrolled in it. The Webinar is your opportunity to have a live and interactive session with me and to check and extend what you are learning. I will also work through real world applications of the theory. Access to the Webinar is through Brightspace, D2L. The link is:

myleonline.tamuc.edu/d2l/home

If you are not coming to the Webinars or watching the recorded sessions, then you and only you will bear those costs.

You must read the chapters before Webinar. Make sure to attend or watch the Webinars to add to your understanding and or be able to ask questions. READ THE BOOK. It is not bad. Again, you will have to integrate this material on your own, if you choose not to attend or watch the Webinars. Exchanging e-mails is a poor way for you to learn. Asking your classmates to explain theory they may not themselves understand is also a poor strategy.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Students are expected to submit assignments and other work on or before the scheduled deadlines, and to take exams during the scheduled periods. Only under documented extenuating circumstances will students be allowed to take exams or submit other required course work beyond the stated deadlines, provided that the instructor is notified in advance or as soon as the mitigating circumstances permit it.

Syllabus Change Policy

The syllabus is a guide, NOT a contract. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

Academic Integrity

The College of Business is committed to maintaining the integrity and respectability of degrees conferred and course credit earned through our department. Academic dishonesty restricts the understanding of subject material by the perpetrator, distracts and discourages other class members, and reduces the value of the economic signal of degrees conferred through Texas A&M University-Commerce.

NOTICE – THE USE OF CHATGPT OR OTHER AI TOOLS FOR ANY GRADEABLE ASSIGNMENTS WILL RESULT IN A ZERO FOR THE ASSIGNMENT. THE STUDENT WILL FAIL THE COURSE IF AI IS USED ON AN EXAM.

Students at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all of their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

TECHNOLOGY REQUIREMENTS

Browser support D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that 10 each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers. Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products. Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
