COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this course, you will utilize the Learning Management System (LMS) D2L for instructional and learning opportunities, submitting assignments, participating in online synchronous and asynchronous discussions, accessing resources, and completing quizzes/tests. Additionally, you will need the knowledge and skills to use Microsoft Word, PowerPoint, and Outlook Email. If you have any issues using the various systems or software, contact support services and notify the Instructor of the technical problem.

Instructional Methods

This course will be delivered via synchronous and asynchronous sessions via D2L. It will consist of live class sessions, pre-recorded lectures, group engagement activities, and various assignments, including experiential learning and practical application of the content areas. In addition, small lectures, discussion activities, and workshops may provide instruction during this course.

Student Responsibilities and Tips for Success in the Course

As a student in this course, you are responsible for engaging in active learning and reaching out to the Instructor if problems or challenges interfere with optimal learning. Communication is vital when engaged in a fully online, virtual environment.

Expectations for success include:

1. Always demonstrate professional behavior, including respect for the Instructor and peers; being open to feedback and guidance throughout this class and the program.
2. Adhered to the School of Social Work, the University's student code of conduct, and the NASW Code of Ethics.
3. Begin reading the assigned text and supplemental readings as soon as possible, focusing on completing all readings before engagement with the Instructor or peers.
4. Prepare to engage in live class sessions, discussions, and other activities so you can contribute and receive knowledge and skills.

5. Actively participate in engagement activities, including live virtual class sessions, online discussions, and interactive learning opportunities, as this is vital for learning and success in both this course and the program.
6. Work ahead when possible. Complete assignments ahead of the due date so you are prepared to submit them on the due date.
7. Sign in to the D2L course shell multiple times weekly to access updated announcements or posted resources.
8. Check your university email daily. This is the university, department, and Instructor's official method of communication.
9. Be open and focused on the "process" and not the "product," as earning this degree requires time, effort, work, growth in knowledge, skills, and abilities, along with personal and professional attributes.

Assessments

FIELD SEMINAR ATTENDANCE (1 hour each week):

Each student enrolled in the field practicum is assigned a faculty field liaison from the social work faculty. The function of the faculty field liaison is to monitor the student's progress in the field practicum and assist the student in integrating classroom learning, theory, and field practicum application of content. Class assignments will be made; completing the required assignments is considered when evaluating the student's progress.

The field liaison faculty member assigns the final grade for the student in the field practicum. This grade is based on the recommendation of the field practicum instructor (the agency-based field instructor) and the faculty field liaison's direct observations.

All students enrolled in the field practicum must meet with the faculty field liaison and other students in a weekly field seminar meeting and/or complete the weekly seminar assignment. The format of the seminars is left to the faculty field liaison, within the following guidelines:

- Field seminar meetings are scheduled at a time every week.
- All students are required to attend the seminar.
- Seminars are scheduled to last one hour.

The purpose of the seminar includes:

- Orientation to field practicum expectations and record keeping.
- Updates on practicum requirements or conditions.
- The opportunity for students to raise and share questions regarding the field practicum, assignments, and expectations.
- The opportunity for students to share with other students their learning experience in the field practicum; to begin the practice of peer consultation on professional problem solving; and to offer support and input to fellow students.
- Offer each student a chance to orient peers to their agency, its location, purpose, and procedures.
 - Offers a chance to familiarize students and faculty with the services and referral
 - Processes of the field agency and resources available for unique rural and/or urban environment aspects.
 - Offers the student and agency mutual exposure to facilitate identifying future employment interests and opportunities.

- Allows agency field students to demonstrate or discuss their approaches to the design and practice of field learning. Allows faculty field liaison to observe students in various professional learning settings.

FIELD PRACTICUM DOCUMENTATION (See Appendix A)

Field Learning Contract/Plan

The student and the field instructor should outline and sign a learning plan/agreement for the student based on course objectives. In addition, the plan is reviewed and signed by the faculty liaison. This plan becomes the guide for the practicum experience and the agency visits by the faculty liaison.

Students' Weekly Logs/Timesheets

Students keep a numerical record of their activities and a narrative account of their experiences in the agency. This report is submitted to the faculty liaison weekly in Tk20 and may be part of the online seminar class discussion.

Final Student Field Placement Evaluation

The final evaluation is a written report of the student's agency experience. The student and field instructor use a rating scale to evaluate the students' performance. The suggested process for the final evaluation parallels that of the mid-term review, whereby the student and field instructor complete the report independently and then, in conference, share and discuss their perceptions and observations. The final evaluation is forwarded to the faculty liaison by the field instructor in Tk20.

Final Review / Evaluation

The final review will evaluate the student's learning assignments, strengths, challenges, and learning experiences. It is suggested that the student and field instructor review the student's performance and then, in a conference, share and discuss their perceptions and observations. The final review should reflect the ideas of the field instructor and the student and will be reviewed during the virtual field visit with the field liaison three weeks before the end of class. The results of the student's performance will be adjusted/updated in the evaluation section of the TK20 database system, listed as the Field Experience Form (Field Instructor-MSW Acknowledgement of Learning Contract, the Field Instructor-MSW Field Learning Evaluation, and the Field Instructor-Evaluation Input). The student's final grade is based on the final review/recommendation of the field practicum instructor (the agency-based field instructor) as well as the direct observations of the faculty field liaison.

Documentation of these activities and others will be documented in TK20. The documentation must be available for the Field Liaison's review at the mid-semester and final-semester virtual field site visits.

COMPREHENSIVE KNOWLEDGE EXAM (30% of final grade):

The test will be 45 questions (5 for each of the nine competencies).

Due Date Policy

The comprehensive exam must be completed on the date it is offered. Other work will be accepted late with a grade deduction of 15%. All work must be completed by the last day of classes.

Course Engagement

Final Evaluation and Grade Depends on Classroom Attendance and Participation:

Inadequate participation or a lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

Students must demonstrate mastery of content and active engagement to earn a level of competency within a specific course.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes, and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships, which is defined as engagement. Engagement is defined as meaningful involvement in interactions with the Instructor, peers, and outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include, but are not limited to, participation in live, synchronous virtual classes, attending a Face-to-Face course when appropriate, interacting with peers in posted discussions, and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and the threshold of active engagement set by the instructor for the semester.

Instructors are experts in each course content area and set the standards for students to meet to complete the course successfully.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct*, and the *National Association of Social Workers (NASW) Code of Ethics*.

Department Code of Conduct

The Academic and Professional Issues Committee (API) hearing is the formal path of due process for a student regarding the concern being expressed. Faculty, field instructors, or faculty field liaisons will refer a student to the School of Social Work's API when a problem arises regarding academic and student conduct and/or professional preparation. When "a student who fails to meet the professional expectation of the field for which he/she is preparing may be suspended from further study in that program by the department administering that program" as demonstrated through ethical and/or legal violations; aberrant disregard for School of Social Work Code of Conduct or other concerns as determined by the [Academic and Professional Issues Committee](#).

Graduate Students have the right to appeal to the Graduate Dean according to [University Procedure 13.99.99.R0.39](#).

Undergraduate Students have the right to appeal to the Dean of the College of Education and Human Services according to [University Procedure 13.99.99.R0.41](#).
