COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

AI Use in Course

Here's the University's policy (as of August 2023) regarding AI:

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructor's guidelines. If no instructions are provided the student should assume that the use of such software is disallowed. In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

For this course, it may be appropriate for you to use AI like ChatGPT for some portions of an assignment. Appropriate uses may be to edit writing, create content, and/or generate ideas. It is not appropriate to use AI to create full assignments, However, you may discover uses that are relevant and appropriate. Anytime you use AI in this course, you must include the transcription

of the conversation as an appendix or attachment to the assignment or discussion. If used, you must also directly reference how you used AI in your discussion post or the assignment submission. This allows for transparency and avoidances of plagiarism. It also helps me to determine if it was a legitimate use of AI for the purposes of this course. If for some reason I do not think it was appropriate, then I will communicate that with you and allow you a chance to resubmit. To learn more about how to appropriately cite Chat GPT or other AI tools, read this blog by McAdoo (2024).

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Grievances

Students who have concerns regarding their courses should first address those concerns with the assigned instructor in order to reach a resolution. Students who are unsatisfied with the outcome of that conversation or have not been able to meet individually with their instructor, whether in-person, by email, by telephone, or by another medium, should then schedule an appointment with the Department Head or Assistant Department Head.

Before an appointment is scheduled, the student must provide clearly documented and explained issues as to why the meeting is being requested. The student must also state when they discussed the issue in person or via phone (not email) with the instructor already. Where applicable, students should also consult [University Procedure 13.99.99.R0.05](#) ("Student Appeal of Instructor Evaluation").
