Instructional Methods

This is a **face-to-face class**. We will meet on **Tuesdays and Thursdays from 12:30 p.m. to 1:45 p.m.** in ED South 127.

For most classes, we will start with a review of the previous class or of the reading homework due that day. From there, I will give a brief lecture on new material, and then we will engage in a class discussion or activity. I provide as much in-class writing time as possible, so you have many opportunities to seek help on assignments. I provide revision-based feedback on all writing activities and writing assignments submitted to D2L.

COURSE REQUIREMENTS

Student Responsibilities or Tips for Success in the Course

For each class meeting, arrive at class on time and prepared. Coming to class prepared means having completed any reading/homework beforehand and bringing the required materials, such as a charged device for textbook access and note-taking.

Here's a brief list of responsibilities and tips for success:

1. Successful students refer to the syllabus frequently throughout the semester.
2. Successful students attend class regularly.
3. Successful students communicate with their professors and peers regularly and respectfully.
4. Successful students plan their weeks with organizational tools.
5. Successful students study effectively with techniques like practice testing and distributed practice.

Note: This information is taken from “Some Habits for Success in College” in *Writing Inquiry*, 3rd edition. For the full version of these strategies, see your textbook in Top Hat.

COURSE ASSESSMENT

As an instructor, my approach to classroom assessment is labor-based and revision-focused. This means that if you turn in your work on time, meet all the requirements of the assignment, and your submission demonstrates critical thinking and intense effort, then you will receive full credit.

The only reasons you may not receive full credit on an assignment are:

1. **Late submissions:** The original deadline is important—both for you and your instructor! The day that you submit a major writing assignment marks the end of one unit and the beginning of a new one. This means that it is hard to catch up if you get behind. The deadline is also important for your instructor to provide feedback in a timely manner. However, I understand that sometimes mental or physical illness, family emergencies, work, and other unforeseen circumstances may affect your ability to complete work on

The syllabus/schedule are subject to change.

time. If you need more time to complete an assignment, please get in touch with me in advance.

2. **Short projects:** Each major writing assignment you complete this semester gives you room to explore the unit's concepts within a certain length—a word count for an essay, a time length for a podcast or video, etc. You will not lose points if you're within 50 words for minor assignments and 100 words for longer assignments (or 30 seconds for minor assignments and 1 minute for longer assignments). However, you may lose points if your project is significantly shorter than the required length.
3. **Misunderstood-the-assignment projects:** Although many of the writing assignment prompts give you room to explore, specific requirements still need to be met, including engaging with the core concepts and questions included in the prompt. For example, if the prompt asks you to define X and analyze Y and Z in context 1 and 2, but you only define X and summarize what that looks like in one context, then you may not receive full credit. Or, if an assignment asks you to support your argument with credible sources and you do not include any secondary sources or only include sources that are not credible, then you may not receive full credit.

For each project, I will provide written revision-based feedback in D2L focused on higher-order concerns. This feedback is meant to promote improvement in your writing process so that your writing improves with each new assignment.

Midterm and final grades in this course will be based on the following scale:

A = 90%-100%
B = 80%-89%
C = 70%-79%
D = 60%-69%
F = 59% or Below

Then, you will research, cite, and annotate 4 sources following the rhetorical précis model and a consistent citational style.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Email Etiquette

For a light-hearted and humorous explanation of academic email etiquette, read “How to Email Your Professor (without being annoying AF)” by Laura Portwood-Stacer [here](#).

In sum, all emails to your instructor should include the following elements:

1. Subject Line: Your subject line should be clear and specific. Recommended format: Name. Class and Section #. Topic of Email.
2. Salutation: Greet your instructor by their preferred name.

The syllabus/schedule are subject to change.

3. Body: Keep your message clear, concise, and respectful (it should not look like a text message). Use a respectful tone throughout. Remember to keep your audience in mind and to recognize that every interaction reflects your academic persona.
4. Closing: End your email with an appropriate closing followed by your full name.

For more details about these elements, an example email, and a template, see “Some Habits for Success in College” in *Writing Inquiry* through your Top Hat platform.

Attendance

Attendance Policy

I take attendance during our review session at the beginning of each class. I will maintain an attendance record all semester.

This course meets twice a week for 15 weeks, for a total of 30 class meetings. Students are permitted **four (4) absences without penalty**, no questions asked. Any absence beyond the initial four will require **official documentation**, unless the student is participating in a university-sanctioned athletics event. If an absence beyond the four allowed is approved, a **2 points deduction per absence** will be applied to the student’s **final exam grade**. Students are responsible for all missed material, assignments, and announcements regardless of the reason for absence—attendance **Matters**.

Tardiness and Early Departure Policy

Tardiness and leaving class early are not permitted. **3 instances** of tardiness or early departure—whether combined or separate—will be counted as **1** absence.

Students are expected to arrive on time and remain for the entire class period. Repeated disruptions may impact overall participation and course performance.

FYI, attendance can directly impact your grade. “It is important to attend class on time and come to class prepared (preparation means having completed any reading/homework beforehand and bringing the required materials like a charged device for textbook access and notetaking). Attending class on time ensures that you do not miss any course announcements, reminders, lectures, or activities. Attending your writing class is important beyond receiving information because your writing classes are not primarily ‘lecture’ courses. Instead, English 1301 and English 1302 help you build your critical reading, writing, and thinking skills through class discussions, in-class activities, and peer-to-peer collaboration. Learning, in these classes specifically, is a social activity that is only impactful if you attend, engage, and participate.” For more information about attendance and participation, see “Some Habits for Success in College” in *Writing Inquiry* through your Top Hat platform.

Submission Guidelines

You will submit your writing assignments on D2L. You must use a D2L compliant file type such as Word .docx, PDF, PowerPoint .pptx, etc. Apple Users: Pages is not a D2L compliant file type.

Civility

The syllabus/schedule are subject to change.

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the Student Guidebook. Your instructor reserves the right to ask any student to leave the class if any student proves distracting or disruptive to their instructor and/or peers. If a student is asked to leave, the student must meet with the instructor during office hours before returning to class.

Interaction with Instructor Statement

My goal is to be as flexible and compassionate as possible. If you have questions or need support, please email me or come to my office during my hours. I will do whatever I can to help you meet your learning goals. To answer emails as quickly and accurately as possible, please follow the email etiquette guidelines described above and in “Some Habits for Success in College” in *Writing Inquiry* (available on Top Hat). I respond to emails within 48 hours, Monday-Friday, 8 a.m. – 5 p.m.

Students who are unsatisfied with the outcome of that conversation or have not been able to meet individually with their instructor, whether in-person, by email, by telephone, or by another communication medium, should then schedule an appointment with **Dr. Jason Walker, the Director of Writing** (jason.walker@etamu.edu). If the Director of Writing is the instructor, the student should contact **Dr. Charles Woods, Chair of the Department of Literature and Languages** (charles.woods@etamu.edu). Where applicable, students should also consult University Procedure 13.99.99.R0.05 (“Student Appeal of Instructor Evaluation”).

Policy

East Texas A&M University (ETAMU) Writing Program acknowledges that there are legitimate uses of Artificial Intelligence (AI), Generative Artificial Intelligence (GenAI), and Artificial General Intelligence (AGI). The ETAMU Writing Program is guided by national, flagship organizations representing the discipline of English and the field of Writing Studies, including the Modern Language Association (MLA), National Council on the Teaching of English

(NTCE), and the Conference on College Composition and Communication (CCCC) regarding the theorization and teaching of critical AI literacy. ETAMU Writing Program values a spectrum of beliefs about AI, GenAI, and AGI, ranging from ethical integration to absolute refusal.

ETAMU Writing Program believes in and practices critical AI literacy alongside ethical, responsible integration of AI, GenAI, and AGI in our writing instruction, appropriately. We teach students to document their AI use in their writing and other curriculum deliverables while highlighting educational concerns about using these technologies. ETAMU Writing Program instructors share their position on and preferences for AI, GenAI, and AGI integration with students, and students follow the instructor's guidelines and the requirements of the course. Undocumented uses of AI, GenAI, and AGI can constitute an instance of academic dishonesty, including cases related to issues like plagiarism and misrepresentation in student deliverables.

Collection of Data for Measuring Institutional Effectiveness

To measure the level of compliance with the university's Institutional Effectiveness guidelines, throughout the semester, I will collect some of the ungraded texts you produce. The texts will be part of a portfolio created on your behalf and will be measured to ensure that our program "promotes practices that result in higher student academic achievement; an enhanced student experience; aligned and transparent decisions; and readily available information for improvement, accountability, and accreditation" (see "Department of Institutional Effectiveness,"

<http://www.tamuc.edu/aboutus/institutionalEffectiveness/default.aspx>). This is solely an assessment of program effectiveness and in no way affects students' course grades or GPAs.
