**Lecture** meets 01/12/2026 through 05/8/2026

**Required Textbook:** "Inorganic Chemistry", Catherine E. Housecroft and Alan G. Sharpe (4<sup>th</sup> Edition, ISBN 978-0-273-74275-3)

**Additional Book for your study of this course:**

"Inorganic Chemistry", 5<sup>th</sup> Edition, Shriver & Atkins, ISBN: 1-4292-1820-7.

### **Course description and learning outcomes:**

This course assumes knowledge of general chemistry. Prerequisites for this class are CHEM 1411 and CHEM 1412. Inorganic chemistry is a core subdiscipline of chemistry. The course covers descriptive chemistry of more interesting elements and compounds and the standard topics in coordination, organometallic, solid-state chemistry, and catalysis and some industrial processes. Regular attendance and active learning are expected. Students' questions and comments are welcome.

Even though the scope of the class is broad, the topics are interconnected. Having complete understanding of each chapter as the class progresses is essential for the big picture to emerge at the end of the semester. This will lay a solid foundation for the specialized study/research in the future.

At the end of the course, the student will be able; (1) to describe and explain the coordination compounds containing metal as central atom which surrounded by ligands; (2) to understand the stereochemistry of coordination compounds; (3) to classify the type and mechanism involve in coordination compounds reactions; (4) to study the characterization of coordination compounds and its application.

### **Grading/Evaluation**

The grade for this course will be derived as follows:

CHEM 415: Lecture and Laboratory (graded as a single 4-credit hour course.)

Lecture Portion: 80% of course grade; Lab portion: 20% of the course grade.

Your performance and final grade in the lecture will be evaluated on the basis of total points earned. The distribution of points will be based on the following: Homework and quiz (10 points), which will be assigned and discussion throughout the semester. Two partial exams and comprehensive final exam will

carry 40 and 30 points, for a total of 70 points. The final letter grade will be based on a standard scale 86-100% A, 75-85% B, 65-74% C, 55-64% D, and below 55% F. The grades may be curved, if warranted. There will be absolutely no make-ups for exams. If you miss an examination, you will be assigned a zero for that assignment. Homework not submitted on time may receive a grade of zero.
