COURSE INFORMATION

Materials - Textbooks, Readings, Supplementary Readings

No materials are required. Students will utilize the university library to locate readings related to their dissertation project.

Course Description

Doctoral dissertations must be acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of his specialization. To be acceptable, the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competency and significant contribution to knowledge. Graded on a (S) satisfactory or (U) unsatisfactory basis.

Student Learning Outcomes (SLOs)

SLO 1: Students will evaluate research to develop a research project.

SLO 2: Students will synthesize research on their topic.

SLO 3: Students will identify techniques for data collection and analysis.

The syllabus/schedule are subject to change.

SLO 4: Students will write a formal dissertation and orally defend their dissertation.

COURSE REQUIREMENTS

Assessments

- / **Proposal** - Before conducting their project, students will write a formal proposal and orally defend it. Therefore, the proposal consists of both the written proposal and the presentation. The proposal consists of literature review and methodology of the project.
- // **Final Dissertation** - A final dissertation that includes the literature review and methodology along with the results and interpretation of the results will be required. A corresponding presentation will be required to defend the final dissertation.

Minimal Technical Skills Needed

Needed Skills needed proficiency in Microsoft Office or similar program is needed. You will also be required to search for articles from the university library. Proficiency in data analytical software (e.g., SPSS) is also required.

Instructional Methods

This is an independent project.

Student Responsibilities or Tips for Success in the Course

Making a structured work plan will help students progress through completing their project at a quicker rate. Set aside time for writing.

The student and advisor will exchange multiple drafts for review of the proposal and final dissertation. It is expected that students submit quality work to the advisor (e.g., the document is professional and proofread). APA style must be used.

Challenges are part of growth. When working through a problem, try to find a solution. Ask your advisor for previous examples of dissertations or search for one from our department on ProQuest. Be proactive in your learning. After all, this is for a Ph.D.

GRADING

S/U is the grading scheme. Students are assigned a grade of I while the dissertation is in progress, and this grade will be converted to an S upon successfully defending the final dissertation. Students may be assigned a grade of U if they are not making progress on their project.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

The syllabus/schedule are subject to change.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct can be found at <https://www.tamuc.edu/student-code-of-conduct/>.

If you believe someone has engaged in behaviors that do not align with the Code of Student Conduct or you have other concerns, please visit the File a Report page at <https://www.tamuc.edu/office-of-student-rights-and-responsibilities/concerns-incident-reporting/>

EAST TEXAS A&M UNIVERSITY Attendance

For more information about the attendance policy please visit the [Attendance](#) webpage.

Artificial Intelligence

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, Chatbots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

The syllabus/schedule are subject to change.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

Students with Disabilities--ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
