PSY 317.02W, PSYCHOLOGY OF PERSONALITY

INSTRUCTOR INFORMATION

Instructor: Dr. Curt Carlson
Office Location: Henderson Hall Room 303
Office Hours: Mondays 9a-11a, Wednesdays and Fridays 9a-10:30a via zoom:
https://tamuc.zoom.us/j/95599289278
University Email Address: curt.carlson@etamu.edu
Preferred Form of Communication: **Email** PUT (PSY317) IN THE TITLE!
Communication Response Time: Within 24 hours (excluding weekends)

COURSE INFORMATION

Textbook(s) Required:
ETAMU BOOKSTORE

SAGE (eBook) | **AMAZON** (physical copy) | ISBN: 1071857185

Software Required

Reliable Internet Access
Access to Microsoft Word/Google Docs or similar software

Course Description

The various approaches to the study of personality and a consideration of its determinants, development, and assessment form the framework of the course. The course's primary objective is to facilitate your conceptual skills and development regarding the main schools of thought in personality theory. This semester, we will explore the following: What is personality? Where does it come from? Are we born with a personality? Do some people have good personalities and others have bad ones? Can people change their personalities? The answer to these questions is…it depends. There are several theories of personality, and each provides a unique perspective about what personality is, how it develops, and whether it remains stable or changes

The syllabus/schedule are subject to change.

Student Learning Outcomes

1. Students will demonstrate the ability to describe and differentiate among the major psychological approaches which explain personality
2. Students will demonstrate the ability to explain research methodology and the ability to evaluate the merits of personality studies.
3. Students will demonstrate the ability to define and apply key personality concepts, terms, and theories.

COURSE REQUIREMENTS

Textbook: Readings in Personality Theories and Application, 2nd Ed. by Eric Shiraev

Discussions: Course discussions are due weekly by midnight on Thursday!
You must respond to the discussion question and respond to one peer. Each discussion and response must include at least 1 citation of a peer-reviewed source/article. Please use APA style and have a Reference section. If you do not respond to a peer, your discussion is considered incomplete and will be graded accordingly.

Quizzes: Quizzes are due weekly by Friday at 5 PM! Each includes 12 multiple-choice questions based on the chapter for that week.

Exams: There will be two exams, one in the middle of the semester covering the chapters previously discussed, and one at the end that will be cumulative. All exams will be administered online via D2L (under Activities → Quizzes → [Exam Name]). Both the Midterm and the Final will contain multiple-choice questions like the quizzes.

Exams are closed-book, but you may use your notes; however, it is strongly suggested that you study as using notes will be time-consuming. Missed exams will not be reopened unless you provide a University-Approved excuse for your absence.

RESEARCH PARTICIPATION:

A goal of this class is to help you become familiar with psychological research. One way to obtain this goal is to have you participate in research studies. Participating in research studies contributes to students and faculty at ETAMU, your understanding of how research is conducted, and human knowledge in general. All students in this class will be required to participate in the psychology department's participant pool or complete alternative assignments. **Students must complete a total of 6 experiment credits. However, if you complete your first 4 experiment credits without any "no-shows" you will receive 2 free punctual participant credits.** In other words, if you show up to your experiments on time you will only need to complete 4 experiment credits. When you first sign into the experiment management system (EMS) you will be asked to take a prescreen. The prescreen takes about 20 minutes to complete. If you complete the prescreen in the first two weeks of the semester you will receive ½ free experiment credit. This can be combined with later experiments that are worth ½ credit.

If you fail to complete this portion of the class your grade will be lowered by one full grade. In effect, if you have an 'A' in the class but fail to complete your research participation (either

The syllabus/schedule are subject to change.

through participating in research studies, alternative assignments, or a mixture of both) your final grade in the class will be a 'B.' More information about participating in research, such as how to log in to the EMS, is given at the end of this syllabus.

Instructional Methods

This course will take place asynchronously in D2L. All discussion posts and exams will take place on D2L.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%
B = 80%-89%
C = 70%-79%
D = 60%-69%
F = 59% or Below

I will round grades! 89.5% will become 90%. But 89.4% will be 89%.

Assessment	Percentage
Discussions	20%
Exams (x2)	60% (30% each)
Quizzes	20%
Total	100%

EXTRA CREDIT

This course includes a research participation requirement of 4 hours (or 6 hours if you have any no-shows). For every additional 1 Sona credit (i.e., 1 hour) of participation beyond the required hours, you will earn 5% extra credit —up to a maximum of 10% (i.e., you can do up to 2 extra hours of research participation).

<u>LATE/MISSED WORK POLICY</u>

Late work will not be accepted, and missed work will not be reopened. The only exception is a **university-approved absence** that verifies the reason for missing the deadline. It is your responsibility to stay informed of all important dates and deadlines throughout the semester.

The syllabus/schedule are subject to change.

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by ETAMU have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:
https://community.brightspace.com/s/article/Brightspace-Platform-Requirements

LMS Browser Support:
https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

Zoom Video Conferencing Tool
https://inside.tamuc.edu/campuslife/CampusServices/CITESupportCenter/Zoom_Account.aspx?source=universalmenu

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

https://community.brightspace.com/support/s/contactsupport

The syllabus/schedule are subject to change.

Interaction with Instructor Statement

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the Student Guidebook.
https://inside.tamuc.edu/admissions/registrar/documents/studentGuidebook.pdf.

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: https://www.britannica.com/topic/netiquette

TAMUC Attendance

For more information about the attendance policy please visit the Attendance webpage and Procedures 13.99.99.R0.01
http://www.tamuc.edu/admissions/registrar/generalInformation/attendance.aspx

Academic Integrity

Students at ETAMU are expected to maintain high standards of integrity and honesty in all of their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

Undergraduate Academic Dishonesty 13.99.99.R0.03
Undergraduate Student Academic Dishonesty Form

http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/documents/13.99.99.R0.03UndergraduateStudentAcademicDishonestyForm.pdf

Graduate Students Academic Integrity Policy and Form

Graduate Student Academic Dishonesty Form

The syllabus/schedule are subject to change.

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services
East Texas A&M University
Velma K. Waters Library Rm 162
Phone (903) 886-5150 or (903) 886-5835
Fax (903) 468-8148
Email: studentdisabilityservices@tamuc.edu

Website: Student Disability Services

https://www.tamuc.edu/student-disability-services/

Nondiscrimination Notice

East Texas A&M University will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry Statement

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in East Texas A&M University buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and ETAMU Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

For a list of locations, please refer to the Carrying Concealed Handguns On Campus document and/or consult your event organizer.
Web url:
http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all ETAMU campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

The syllabus/schedule are subject to change.

ETAMU Supports Students' Mental Health

The Counseling Center at ETAMU, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit **www.tamuc.edu/counsel**

Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and explore the resources available to you for guidance and support whenever you need it.

http://telusproduction.com/app/5108.html

AI use policy [Draft 2, May 25, 2023]

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.
Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).
Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors 'guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.
In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
13.99.99.R0.03 Undergraduate Academic Dishonesty
13.99.99.R0.10 Graduate Student Academic Dishonesty

The syllabus/schedule are subject to change.

COURSE OUTLINE / CALENDAR

Week	Content
Week 1 January 12-16th	Syllabus Discussion and Chapter 1: Introducing Personality; Introduction Post
Week 2 January 19-23rd	Chapter 2- Scientific Foundations to Study Personality **Quiz 1 Due 1/23**
Week 3 January 26-30th	Chapter 3: Research Methods
Week 4 February 2-6th	Chapter 4: Psychoanalytic Tradition *Discussion Post 1 due 2/5*
Week 5 February 9-13th	Chapter 5: The Behavioral Learning Tradition **Quiz 2 due 2/13**
Week 6 February 16-20th	Chapter 6: The Trait Tradition *Discussion Post 2 due 2/19*
Week 7 February 23-27th	Chapter 7: The Cognitive Tradition *Discussion Post 3 due 2/26*
Week 8 March 2-6th	**Midterm Exam due 3/6**
Week 9 March 9-13th	**Spring Break**
Week 10 March 16-20th	Chapter 8- Humanistic Tradition **Quiz 3 due 3/20**
Week 11 March 23-27th	Chapter 9: The Developmental Domain *Discussion Post 4 due 3/26*
Week 12 Mar 30-Apr 3rd	Chapter 11: The Clinical Domain **Quiz 4 due 4/3**
Week 13 April 6-10th	Chapter 12: The Adjustment Domain *Discussion Post 5 due 3/26*
Week 14 April 13-17th	Chapter 13: The Digital Domain **Quiz 5 due 4/17**
Week 15 April 20-24th	Study for Final
Week 16 Apr 27-May 1	Study for Final
Week 17 May 4-8th	**Final Exam due 5/8**

The syllabus/schedule are subject to change.

Students' Guide to Research Participation

Department of Psychology & Special Education

East Texas A&M University

- **What is Research Participation?**

Exposure to research is essential to your gaining a better understanding of the scientific study of psychology. It is how we add new knowledge in psychology. Being involved in research is a good way to experience first-hand and learn about the scientific enterprise. We believe there are two key ways to experience research activity at this level: 1) read about related scientific investigations; 2) experience research as a volunteer participant; or some combination of both. The class in which you received this information requires you to fulfill several research credits through one or both of these activities. Or, research participation is by extra credit – ask your instructor if you are not sure whether or not it is required.

- **What if I am not yet 18 years old?**

In order to participate in research you must be at least 18 years old. If you are not yet 18 years old, please see your instructor, and ask him/her about alternative ways of earning research credit.

- **In what type of research studies will I participate?**

All studies you will participate in have been reviewed and approved by the East Texas A&M University Institutional Review Board (IRB) and by the Department of Psychology & Special Education. Studies vary widely. Many involve completing questionnaires or carrying out tasks on the computer. Some are even fun, and you'll learn something from all of them.

- **What are my rights as a research participant?**

Your participation is voluntary and you may withdraw from any study at any time. Your data will be kept confidential. If you have any further questions about your rights as a research participant, you may contact the IRB (IRB@etamu.edu). More information about your rights will be provided to you prior to each study for which you sign up.

- **How will my research participation credit be calculated?**

You will receive 1 credit for each hour of research participation. Studies lasting 15 minutes or less are worth 0.25 credit. For example, a 15 min. study = 0.25 research credits; 30 min. = 0.5 credits; 45 min. = 0.75 credits; 60min = 1 credit; 1½ hours = 1.5 credits… etc.

- **How many research credits may I complete?**

You are encouraged to participate in as much research as you wish, but at a minimum you must complete the number of research credits specified by your instructor (by participating in research, or alternative assignments, or a mixture of both).

- **What if I cannot go to a study I signed up for?**

If for whatever reason you cannot attend a study that you have signed up for you need to cancel your appointment before the start of the study. There are two ways to cancel an appointment. First, if you cancel 24 hours before a study you can do this online through the Experiment Management System (EMS) website. Second, if it is the same day of the study you can call or email the experimenter – their contact information will be available in the EMS.

The syllabus/schedule are subject to change.

- **What if I sign up for a study but forget to go?**

If you fail to show up for a study (without canceling prior to the start of the study) you will receive an email alerting you that you were listed as a "no show" for that study. Additionally, on the EMS website you will see a "failure to appear" message in your list of studies completed.

- **What will happen if I fail to participate in studies or do the alternative assignments?**

You will be penalized if participation is required, and this penalty is up to your instructor.

- **What if I do not wish to participate in research studies?**

If you do not wish to participate in research studies, you may utilize the alternative assignment option. You must consult your instructor for information about this option.

- **What is the difference between an online study and a laboratory study?**

There are two types of studies that are conducted through the EMS system. You can sign up for both online studies and laboratory studies through the EMS system, however you are only allowed to complete 50% experiment credits through online studies (the system will not allow you sign up for more than 50% credits of online studies) if you are taking a face-to-face course. For online courses or those taking place far from the Commerce campus, all of your credits can come from online studies. A laboratory study requires that you attend the experiment at a specific time and place.

- **How do I find and sign up for research participation opportunities?**

Throughout the semester, researchers in the Psychology Department will post their research studies in the Experiment Management System (EMS) online. It is up to you to check the EMS regularly to find and sign up for research studies that fit into your schedule. Detailed instructions for how to use the EMS are listed in the following pages of this handout.

The syllabus/schedule are subject to change.

How do I use the Experiment Management System (EMS)?

(Create a new participant account unless you already have one and your login information works. If you do not remember your login information click on the "lost your password?" on the front page of the EMS website and follow the directions on the site, and if that does not work email curt.carlson@etamu.edu. A list of courses will be presented, from which you must select the courses you are taking this semester for which you will receive credit for participation. If your course is not listed, see the instructor for that course.)

A. How to create a participant account on the EMS

1. Go to https://etamu.sona-systems.com

    a. Click on New Participant "request an account here" link on the left of the screen.

    b. This takes you to a screen on which you must enter your name, a unique User ID, your University ID number, and primary email address (reminders of studies you sign up for will be sent to that email address). You will also need to highlight the course(s) in which you are enrolled, and for which you will be earning credits. If more than one, highlight all that will be involving you in research participation. However, each study in which you participate will only provide you credit for ONE course. In other words, there is no "double-dipping" allowed. BE CAREFUL TO SELECT THE CORRECT COURSE AND SECTION # – IF YOU CHOOSE THE WRONG ONE, YOUR INSTRUCTOR WILL NOT BE INFORMED OF YOUR CREDITS! After you submit your information, you will be emailed your login information. (After you have received your login information, I recommend that you login into EMS and go to your "Profile" and change your password to something that you can remember.)

If you encounter any problems with creating your account (e.g., login information not sent to you), contact the EMS administrator, curt.carlson@etamu.edu with your full name and a detailed description of the problem.

2. When you first log into the EMS at the beginning of the semester you will be asked to take a prescreen survey. This is a short survey that researchers will use to decide if you meet the specified requirements for some studies (e.g., as a researcher I may only allow participants who are female. If you do not complete the prescreen you will not be eligible to participate in this study). In other words, if you do not complete the prescreen you will have fewer studies that you are eligible to participate in. **IF YOU COMPLETE THE PRESCREEN IN THE FIRST TWO WEEKS OF THE SEMESTER YOU WILL**

The syllabus/schedule are subject to change.

GET 0.5 CREDIT. Take it even if you have done it before – it has probably changed, and you will still earn the 0.5 credit.

3. You are now ready to use the EMS to sign-up for research studies.

B. Sign-up for studies—login to the EMS with your User ID and password that was emailed to you after creating your account

1. Click **Study Sign-Up**. A list of all available studies for which you qualify will appear. You can sign-up by clicking on either the study name or **Timeslots Available**, and you will go to a new screen showing more information about the study, with a link to **View Time Slots for This Study**.

2. Click the **Sign-Up** button to schedule your time. Online studies will generally have just one timeslot with a set max number of students who can participate. Simply select that timeslot, and it will inform you how long you have to participate in the study.

C. Canceling a Sign-Up

1. If you need to cancel a timeslot you have signed up for, you can do this from the **My Schedule and Credits** page. Choose the **My Schedule and Credits** option from top toolbar.

2. You will see listed all of the studies for which you have signed up, as well as those you have completed (see the Tracking Your Progress section below for more information).

3. Studies for which you have signed up that you are allowed to cancel will have a **Cancel** button next to them.

4. If you cancel the first part of a two-part study, the second part will also be cancelled. If you cancel the second part of a two-part study, the first part will *not* be cancelled, but you will need to ask the researcher to sign you up for the second part again, if you would like to participate in it at a later date. However, this is up to the researcher.

D. Tracking Your Progress

1. You may track your progress at any time by choosing the **My Schedule and Credits** option from the top toolbar.

3. When you view this page, you will see at the top a list of the number of credits you are required to earn, and how many you have earned so far. Below that, if you have signed up for any studies, those are listed as well. In the list of studies, you will see information about your credit status.

The syllabus/schedule are subject to change.

Note: Your login session will expire after a certain period of inactivity, usually 20-60 minutes. This is done for security purposes. If this happens, you can always log in again. When you are finished using the system, it is better to explicitly log out, to prevent any problems that may arise if someone uses your computer before the session expires. This is especially important if you are using a public computer lab.

E. Frequently Asked Questions

1. Immediately after I login, as soon as I click on any menu option, I am taken back to the login page and I see a message that my authentication has expired. What does this mean?

Your web browser is not properly configured to accept cookies. You should turn on cookies in your web browser, use a different web browser (for example, try Firefox if you are currently using Internet Explorer), or try a different computer. Detailed instructions can be found if you go to the site and enter the URL "cookie_help.asp" in place of "default.asp" in the address bar of the browser, when you are on the front page of the site.

2. I participated in a study, but I have yet to receive credit. How do I receive credit?

The researcher must grant you credit. This is usually done within a few days after your participation. If it has been some time and you have still not received credit, contact the researcher (his or her contact information should be listed when you click on the study name within the system).

3. How do I change the email address where email notifications from the system are sent?

You can change the email address where notifications are sent by going to **My Profile** and editing the email address you see there.

4. Should I keep some sort of record of my participation and credits earned?

The system will keep track of the credits you earn and your instructor will have access at the end of the semester to a report of credits earned by students enrolled in the class. It is a good idea, however, to occasionally print a personal copy of your credits earned and hold on to that printout as a back up to the system.

The syllabus/schedule are subject to change.
