Interaction with Instructor Statement

You are welcome to email me with questions or concerns; however, there are some caveats associated with email that you must remember:

1. A reasonable response time is 24 - 48 business hours.
2. Questions emailed on weekends may not receive a response until the next work week begins.
3. As the instructor, I reserve the right to answer emailed questions in a direct email/ D2L announcement post to everyone for the benefit of all students.
4. Please be courteous and professional in all of your interactions with fellow classmates, internship site supervisor and internship coordinator.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

AI Use Policy

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.(See Course Specific AI Policies)*

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

13.99.99.R0.10 [Graduate Student Academic Dishonesty](#)

***Course Specific AI Policies**

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all writing assignments should be prepared by the student. Developing strong competencies in this area will prepare you for a competitive workplace and ensure you are learning foundational knowledge. This foundational knowledge is what equips you with theoretical knowledge that can help you accurately assess the credibility and validity of any content related work you come across (publications, websites or AI generated responses). This policy ensures that students are actively engaging with the material and honing their own skills rather than relying on automated tools to generate writing that requires content specific knowledge to help develop critical thinking skills

- Therefore, in this class, AI use for generating writing is prohibited. This course assumes that all work submitted by students will be generated by the students themselves, working individually or in groups. Students should not have another person/entity do any of the writing of an assignment for them, which includes hiring a person or a company to write assignments and using artificial intelligence tools like Copilot, ChatGPT and Google Bard.

The syllabus/schedule are subject to change.

- If editing platforms including AI or Grammarly are used to help revise and edit your original work, you are required to submit two separate versions to the written assignment link (1) your original un-edited work and (2) the final version that includes the revised grammar corrected AI generated writing/text. If these two versions are different in regards to content, it will be assumed that AI was used for content generation and the graduate school policies and procedures for academic dishonesty will be followed (13.99.99.R0.10 [Graduate Student Academic Dishonesty](#))
