Course Description

The purpose of this course is (1) to present the Diagnostic and Statistical Manual of Mental Disorders (“DSM”) as a knowledge base for enhancing social workers’ understanding of individual biopsychosocial function and (2) to expand social workers’ ability to use the DSM-5 to work with at-risk populations across diverse settings and with diverse mental health professionals. Ethical dilemmas inherent in categorizing and labeling will be highlighted, along with cultural concerns in using a homogenous system of diagnostic classes.

Prerequisites

Students must have completed all MSW foundation curriculum requirements, been admitted to the MSW program, and be in good standing in the MSW program.

STUDENT LEARNING OUTCOMES

The Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students’ ability to demonstrate the competencies identified in the educational policy. Listed below are the competencies and associated knowledge, skills, values and cognitive and affective processes that comprise the expected outcomes for this course.

Competencies	Assessment/Assignment	Dimension
Competency 1: Students will demonstrate ethical and professional behavior		
Make ethical decisions by applying the standards of the National Association of Social Workers Code of Ethics, relevant laws and regulations, models for ethical decision making, ethical conduct of research, and additional codes of ethics within the profession as appropriate to both rural and urban contexts and at the intersection of the two.		Knowledge, Skills, and Cognitive and Affective
Demonstrate professional behavior; appearance; and oral, written, and electronic communication as appropriate to rural and urban settings.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective
C. Use technology ethically and appropriately to facilitate practice outcomes in urban and rural settings	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective

Competencies	Assessment/Assignment	Dimension
D. Use supervision and consultation to Guide professional judgment and behavior within the context of both/either urban or rural settings and at the intersection of the two environments.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective
Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities		
A. Apply theories of human behavior and person-in-environment, as well as other Culturally responsive and interprofessional Conceptual frameworks, when assessing clients and constituencies in both urban and rural settings and at the intersection of both.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective
Demonstrate respect for client self-determination during the assessment process by collaborating with clients and constituencies in developing a mutually agreed-upon plan reflective of their environment whether rural, urban, or at the intersection of both.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective
Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities		
Engage with clients and constituencies to critically choose and implement culturally responsive, evidence-informed interventions to achieve client and constituency goals in both urban and rural settings and at the intersection of the two.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective
B. Incorporate culturally responsive methods to negotiate, mediate, and advocate with and on behalf of clients and constituencies in urban and rural settings.	Assessment, Role Play Activity/Discussions and Exams	Knowledge, Skills, and Cognitive and Affective

COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this course, you will utilize the Learning Management Systems (LMS) D2L for instructional and learning opportunities, submitting assignments, participating in online synchronous and asynchronous discussions, accessing resources, and completing quizzes/tests. Additionally, you will need the knowledge and skills to use Microsoft Word, PowerPoint, and Outlook Email. If you have any issues with using the various systems or software, you must contact support services and notify the instructor of the technical issue.

Instructional Methods

This course will be delivered via synchronous and asynchronous sessions via D2L. It will consist of live class sessions, pre-recorded lectures, group engagement activities, and various assignments, including experiential learning and practical application of the content areas. In addition, small lectures, discussion activities, and workshops may provide instruction during this course

Student Responsibilities and Tips for Success in the Course

As a student in this course, you are responsible for engaging in active learning and reaching out to the instructor if problems or challenges interfere with optimal learning. Communication is vital when engaged in a fully online, virtual environment.

Expectations for success include:

1. Always demonstrate professional behavior, including respect for the instructor and peers; being open to feedback and guidance throughout this class and the program.
2. Adhered to the School of Social Work and University student code of conduct and NASW Code of Ethics.
3. Begin reading the assigned text and supplemental readings as soon as possible, focusing on completing all readings prior to engagement with the instructor or peers.
4. Prepare to engage in live class sessions, discussions, and other activities so you can be a contributor as well as a receiver of knowledge and skills.
5. Actively participate in engagement activities, including live virtual class sessions, online discussions, and interactive learning opportunities -as this is vital for learning and success in both this course and the program.
6. Work ahead when possible. Completing assignments ahead of the due date so you are prepared to submit on the due date.
7. Sign in to the D2L course shell multiple times weekly to access updated announcements or posted resources.
8. Check your university email daily. This is the university, department, and Instructor's official method of communication.
9. Be open and focused on the "process" and not the "product," as earning this degree requires time, effort, work, growth in knowledge, skills, and abilities, along with personal and professional attributes.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Evaluation for the course grade is according to the following formula:

Assessments	Value
Assessment Diagnosis & Interventions	200 pts
Exam (2 @ 100 Pts.)	200 pts
Weekly Discussions (divided by the number of weeks, i.e., 10 @ 0 pts)	0 pts
Total	400 pts

Course Engagement**

Final Evaluation and Grade Depend on both Classroom Attendance and Participation. Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material. To earn a level of competency within a specific course, students must demonstrate mastery of BOTH content and active engagement.

Mastery of content areas is evidenced by the successful completion of course assignments such as written papers, group project deliverables, tests/quizzes, and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement in each course is the meaningful involvement in interactions with the instructor, peers, and outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment or interviewing for an internship). Within the classroom setting, whether virtual or Face-to-Face (F2F), students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include, but are not limited to, participation in live, synchronous virtual classes, attending a F2F course when appropriate, interacting with peers in posted discussions, and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the Instructor.

Instructors are experts in each course content area and set the standards for students to meet to successfully complete each course.

Class Attendance and Participation

Face-to-Face Classes

Students are expected to attend classes scheduled to meet Face-to-Face, reflecting the responsibility inherent in developing as a social work professional. Roll calls will be taken regularly. Students are expected to be on time and prepared to participate when class begins, as well as be present throughout the entire class meeting. Classroom exercises, discussions, role plays, guest speakers, and other in-class experiential exercises are essential for a student's professional learning and continued development of self-awareness.

For classes that meet twice a week, students can be absent up to 5 times through the semester with no penalty. If **6 absences** occur, the overall grade will be **dropped 1 letter grade**. If **7 absences occur** (25% of the scheduled classes), the student will be **dropped 2 letter grades** or may result in failing the class.

Online, Web-Enhanced or Blended Classes

Just as students are required to attend face-to-face classes, students are required to log in and participate in online components. To receive credit for attendance online via D2L, students must log in and complete assignments in a timely manner. Not logging in to D2L to review the instructional material and completing assignments online during the appropriate time is the equivalent of an absence for each week this occurs.

Final evaluation and grades depend on both presence and participation. Students' grades will be significantly impacted by inadequate participation or lack of required time commitment each week established by each Instructor. Students are expected to spend a comparable amount of time in the online learning environment as they would in class (3 hours a week in the classroom). In addition, as in traditional F2F classrooms, students are expected to invest time in reading and studying class materials.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and the *National Association of Social Workers (NASW) Code of Ethics*.

Department Code of Conduct

The Academic and Professional Issues Committee (API) hearing is the formal path of due process for a student in regard to the concern being expressed. A student will be referred to the School of Social Work's API by faculty, field instructors, or faculty field liaisons when a concern arises regarding academic and student conduct and/or professional preparation. When "a student who fails to meet the professional expectation of the field for which he/she is preparing may be suspended from further study in that program by the department administering that program" as demonstrated through ethical and/or legal violations; aberrant disregard for School of Social Work Code of Conduct or other concerns as determined by the [Academic and Professional Issues Committee](#).

If you have any questions or are having difficulties with the course material, please contact your instructor. Correspondence will always be through university email (your “myLeo” mail) and announcements in myLeo online (D2L). You will not RECEIVE email through D2L, so be sure to check your ETAMU email for communication. Students are encouraged to check university email daily.

Include the Following in Emails with Instructor:

- Course name and subject in the subject line
- Salutation (Good afternoon, Dr. Jackson)
- Proper email etiquette (no “text” emails – use proper grammar and punctuation)
- Student name and CWID after the body of the email (possibly add to student signature on email)

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The [Code of Student Conduct](#) is described in detail online in the [Student Guidebook](#).

Students should also consult the [Rules of Netiquette Webpage](#) for more information regarding how to interact with students in an online forum.

ETAMU Attendance

For more information about the attendance policy, please view the [Attendance Webpage](#) and the [Class Attendance Policy](#)

Academic Integrity

Students at East Texas A&M University are expected to maintain high standards of integrity and honesty in all their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

Use of Artificial Intelligence

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
