## **COURSE INFORMATION**

**Laboratory I (Web Based Class):** Meets 6/1/2026 through 7/2/2026

**Textbook:** The custom lab manual for general chemistry I is available at the campus bookstore or the e-book is available for purchase in D2L.

## **COURSE DESCRIPTION**

A one semester experimental survey of the fundamentals of chemistry, exploring the basic physical principles and the descriptive chemistry of metals and non-metals, with applications to related fields. This course is not suitable for biological science majors or minors. (Students planning to enter professional and/or graduate schools should elect Chemistry 1311-1312.).

### **Student Learning Outcomes**

By the end of the semester I intend my students to have realized a number of objectives.

(1) All students must be able to readily identify glassware commonly used in the chemistry laboratory and know how to properly utilize the glassware.

(2) Learn basic chemistry techniques, such as how to calculate percent yields, how to properly use measuring devices, how to properly clean glassware at the end of an experiment.

(3) Learn the safety requirements and methods needed to work in a chemistry laboratory.

Learn how to safely handle, utilize and dispose of chemicals.

(4) Learn how to document laboratory experiments, how to maintain a scientific notebook.

(5) Communication in the form of laboratory reports will be clear, purposeful, and make appropriate use of evidence, data and technology as applicable.

(6) You should be able to critically analyze data, draw conclusions from the data, and clearly and concisely report the observations and conclusions drawn from the laboratory experiments.

(7) Students will develop and execute effective processes for completing tasks.

(8) Students will be able to interpret, test and demonstrate principles revealed in empirical data.

## GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

The lab report with the lowest score will be dropped. The average of the grade for the rest of the eleven laboratories will constitute the laboratory grade.

Prelab	40%
Post-lab	60%
Total	100%

You are required to submit pre-Lab/post-Lab Reports in a timely manner. You will incur a 10% penalty for every day that your lab report is late; thus, if a lab report is 10 days late, you will receive a zero for that report. **The last drop date for the course, please check the university website:**

<http://www.tamuc.edu/Admissions/registrar/academiccalendars/>.

Incomplete grades may be given only if the student has a current average above 70% and is precluded from completion of the course by a documented illness or family crisis.
