COURSE DESCRIPTION AND OUTCOMES

This undergraduate online course introduces students to the core concepts, debates, and movements shaping global human rights and social justice today. Drawing on case studies from around the world, students will explore how individuals and communities challenge injustice and advocate for change. Topics include disability rights, global responses to HIV/AIDS, Mothers Against Drunk Driving, MeToo, and other contemporary campaigns for equity and dignity. The course emphasizes intersectional analysis—examining how race, gender, sexuality, class, and ability interact with systems of oppression and resistance. Through readings, multimedia, discussion, and reflective writing, students will build a critical foundation in human rights theory and practice and explore their own roles in advancing justice locally and globally.

COURSE OBJECTIVES

- apply interdisciplinary scholarship and its theoretical underpinnings through designing and carrying out an independent research project.
- generate and effectively communicate scholarly material to communally engage in the process of assessment, critique, and refinement

- identify and evaluate the impact of major social justice movements and their historical and cultural contexts.
- articulate informed perspectives on ethical and political questions related to rights, justice, and advocacy.

REQUIRED TEXTBOOKS

Nora Krug, *Belonging: A German Reckons with History and Home*, Scribner, 2019.

ISBN: 1476796637

Every effort has been made to make films accessible to students, however, the students may have to rent a few films for a nominal cost over the course of the semester. There are currently no textbooks for the course.

WORKLOAD:

The rule of thumb for time required for course study and preparation each week for a face-to-face class or an online course during the spring and fall semesters is three times the number of credit hours (or 9 hours per week) for the course. But in the summer session, we only have 5 weeks INSTEAD of the full 15, so our schedule is very compressed. You need to plan accordingly. If you find yourself unable to complete course requirements in a timely manner, refer to the University's withdrawal policy and the appropriate dates. Incomplete grades are only granted for extreme emergencies. Being "overloaded" either from other class assignments or job commitments are not considered to be emergency situations. For this class, you should expect an hour to an hour and a half of work each day. If you desire, you can work ahead and start the projects early and take the class at your own pace, just remember to follow due dates and engage in conversation in discussion posts!

COURSE REQUIREMENTS: *

Participation: Each person is expected to be prepared for the class, which means having completed the reading and/or viewing the film screening and completed the assignments. Responding to classmates discussion posts is a pivotal and key part of each of the assignments for the course.

Discussion: Each student will write numerous times to the discussion page for the class. There will be clear class prompts, with word counts for you to follow.

Short Papers: Throughout the term, students will write short papers responding to prompts provided by the professor as well as reviews of films and documentaries.

One-Pagers: To help comprehend various movements and organizations, students will produce one-pagers, which are handwritten and drawn papers that summarize and present key ideas to the reader.

Research Project: Towards the end of the course, you will complete a research on a project of your interest. Information will be given on this separately.

Assignments will NOT be accepted after the END DATE posted on D2L. For each class day late, the grade will be reduced by ½ a letter grade.

to change

Note: Personal computer problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the school or local library, office service companies, an Internet cafe, or a bookstore, such as Barnes & Noble, etc.

DISCUSSION:

Each person will bring their own experiences to this class and should feel comfortable expressing their opinions and vulnerabilities. We will look at a wide array of artwork and examples of visual culture, some of which might include nudity, intense language, violence, etc. The classroom is a safe environment, and each student should behave with integrity and treat their peers with respect. The purpose of this course is educate and inform students on human rights issues, protest movements and social dynamics and actions; to be clear, there is no attempt to convince people to alter their beliefs or to join any movements.

SYLLABUS CHANGE POLICY

CLASSROOM POLICIES:

Statement on Student Behavior:

All students enrolled at the University shall follow the tenet of common decency and acceptable behavior conducive to a positive learning environment (See Student's Guide Handbook, Policies and Procedures, Conduct).

All students must show respect toward the instructor and the instructor's syllabus, presentations, assignments, and point of view. Students should respect each others' differences. If the instructor determines that a student is not being respectful towards other students or the instructor, it is the instructor's prerogative to ask the student to leave, to refer the student to the department head, and to consider referring the student to the Dean of Students who may consider requiring the student to drop the course. Please refer to pages 42 – 46 of the East Texas A&M University Student guidebook's Codes of Conduct for details.

Academic Dishonesty: Students at East Texas A&M University are expected to maintain high standards of integrity and honesty in all of their scholastic work. There is **no tolerance** for any kind of academic dishonesty in this course. This includes, but is not limited to, plagiarism, cheating on exams, theft of instructional material or exams, representing the work of someone else as one's own, and misrepresenting absences. Academic dishonesty is a severe transgression and may result in referral to the Dean of Students, expulsion from class and/or the University, and a failing grade.

It is the student's responsibility to:

1. research and write their own papers
2. give proper credit through documentation when using words or ideas of others
3. rely on their own knowledge when taking tests
4. refuse to give another student the opportunity to be dishonest

Artificial Intelligence (AI): The use of ChatGPT, Copilot, or any other AI platform or tool to generate ideas, write content, or produce any material is strictly prohibited in this course.

This class is designed to develop your writing skills, and if you are using AI, you are not writing or learning. This is because the use of AI diminishes opportunities to learn from our experiences and from each other, to play with our creative freedoms, to problem-solve, and to contribute our ideas in authentic ways. In a nutshell, college is a place for learning, and this AI simply cannot do that learning for us.

Any work written, developed, created, or inspired by generative artificial intelligence does not lend itself to our learning goals and is a breach of ethical engagement and our academic integrity policy. Using AI opens up academic honesty issues, both because it raises the question if the work is "your" work, and also because tools like ChatGPT rely on taking material from uncredited scholars and writers. **If discovered that you have used any type of AI for your work, you will face negative consequences, which will include failing the assignment and potentially failing the course and facing discipline from the university.**

Please be cautious using tools like Grammarly, which can be very helpful with spell check and grammar help but should be avoided when they generate content.

TURNITIN

East Texas A&M University uses Turnitin software to help students avoid plagiarism and cheating. Turnitin is a 'text-matching' software which is designed to educate students regarding appropriate citation and referencing techniques. Turnitin is also used to provide East Texas A&M University with confidence in the academic integrity of students work. Turnitin does this by comparing a student submission against an archive of Internet documents, Internet data, a repository of previously submitted papers, and subscription repository of periodicals, journals, and publications. Turnitin then creates an 'Originality Report' which can be viewed by both lecturers and students, which identifies where the text within a student submission has matched another source.
