COURSE INFORMATION

Textbooks, Readings, Supplementary Readings:

Textbook Required:

Cohen, A.M., Brawer, F.B., & Kisker, C.B. (2013). The American community college (6th ed.). San Francisco: Jossey-Bass.

Supplementary Readings (optional):

Publications Manual of the American Psychological Association (7th ed.). (2019). Washington D.C.: American Psychological Association.

Course Description: This course offers a comprehensive introduction to the study of community colleges. Through assigned readings, discussions, and research projects, students will acquire a broad understanding of the community college landscape. Projects and presentations will focus on specific community colleges and chosen content areas, enhancing students' knowledge and engagement. Emphasis is placed on discussions to aid in processing course content, while research projects provide deeper insights into community college-related topics. Additional readings will complement the main text by Cohen and Brawer.

Student Learning Outcomes

Upon completion of this course, students will:

- Develop an understanding of the historical development of community colleges.

****Course syllabus subject to change****

- Comprehend the unique characteristics, purposes, and philosophical foundations of community colleges as postsecondary institutions.
- Gain insight into the governance, financing, administrative systems, and policy challenges facing community colleges.
- Acquire knowledge of the functions, services, and components of community colleges, including faculty, students, and programs.
- Understand current and emerging issues confronting community colleges.
- Gain practical experience in conducting research within a chosen content area of interest.

COURSE REQUIREMENTS

Research and Reading Expectations

To fully engage with each week's topics, students are expected to delve into both the course text and supplementary resources. While the internet may offer valuable insights, it should not be the sole source of information. Your commitment to thorough research will enhance your understanding and research skills.

Participation in Online Threaded Discussions

Active participation in online threaded discussions is essential. Initial responses to discussion questions are due by Friday each week, with responses to peers due by Sunday. Merely regurgitating lecture content or textbook material will not suffice; substantive engagement and citing appropriate references are crucial. Failure to complete both components of the discussion will result in no credit being awarded.

Final Assignments

All students must submit a paper focusing on one of the major student learning outcomes outlined in the course. Late submissions will not be accepted. Papers must be meticulously edited and adhere to APA Style Manual guidelines. Writing quality, including grammar, punctuation, and spelling, will be rigorously assessed alongside content. Any instance of academic dishonesty will result in appropriate penalties.

As you navigate this course, remember that effective communication through writing is a vital skill in this program. Strive for clarity, accuracy, and adherence to academic standards in all your written work.

STUDENT RESPONSIBILITIES AND TIPS FOR SUCCESS IN THE COURSE

Scholarly Expectations

At East Texas A&M University, we prioritize academic integrity and hold a zero-tolerance policy towards plagiarism and other forms of academic dishonesty. Such behavior includes but is not limited to plagiarism, auto-plagiarism, cheating, collusion, and abuse of resource materials. All submitted work must be original and uniquely created for this course. Works will be screened

****Course syllabus subject to change****

for plagiarism using TurnItIn or similar services. Consequences for academic dishonesty may range from reduced credit on assignments to potential removal from the academic program or institution, with an automatic F in the course being a standard outcome. Proper citation in APA 6th edition style is required for any referenced works.

Students should demonstrate proficiency in resolving technical issues, problem-solving skills, and the ability to embrace challenges as opportunities for learning and growth. As future educational technology professionals, collaboration and cooperation are essential skills that students are expected to practice throughout this course. It is encouraged to seek assistance when needed and offer support to peers.

Timeliness

Assignments must be submitted by the designated due dates to receive full credit. Late or incomplete submissions may result in deductions of up to 10% of the assignment's value per day, with assignments losing all value if submitted 10 days past due. Ample notification and time will be provided for completing course assignments. Students are encouraged to plan ahead for any anticipated absences or technical difficulties and have contingency plans in place.

Time Commitment

To succeed in this course, students should be aware of the time commitment required. Refer to the bullets below for an estimate of the average expected time spent on class-related work:

- Outside class per class week: 9 hours (minimum), 12 hours (maximum)
- Total Term Expectation: 144 hours (minimum), 192 hours (maximum)

Your commitment to these requirements and policies will contribute to a successful and enriching academic experience. Should you have any questions or concerns, please do not hesitate to reach out for assistance.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Total points corresponding to the final letter grades

AI USE POLICY (Draft 2, May 25, 2023)

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
