Course Description

Student Learning Outcomes

Students will understand the context, challenges, and complexities of the American higher education system; and apply ideas for possible resolutions for institutional sustainability, improvements, and continued progress.

The syllabus/schedule are subject to change.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students must familiarize themselves with D2L and Microsoft Word. Utilization of ETAMU's online library resources, including search and retrieval of peer-reviewed journal articles will be necessary.

Instructional Methods

This is a fully online course. Assignments will be delivered via the D2L learning media platform. Knowledge of the substantive material covered in the course is of central importance. Grading will include consideration of content and APA format guidelines as well as grammar, spelling, organization, and explicit use of readings. A serious commitment to mastery of the content and contribution to everyone's learning is expected. An online course inherently requires students to be active, reflective, and contributive learners.

Student Responsibilities or Tips for Success in the Course

It is the student's responsibility to log in the course website regularly to compile with all the course requirements, and to engage actively in all required class activities.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Class Introduction	5 points
Discussion Posts	150 points
Article Summaries	150 points
Final Reflection	45 points
Total	350 points

The syllabus/schedule are subject to change.

AI use policy [Draft 2, May 25, 2023]

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
