Course Description

This course will examine ways in which educators can bridge the gap in engagement in school settings by addressing the integration of popular culture, outside of the classroom/social aspects, and digital literacies within the traditional academic learning setting. The course will address strategies and emerging technologies to make curriculum relevant and authentic, as well as teach course participants to use skills and technology tools that will cross subject areas beyond ELA. Best practices in using technology as teaching and learning tools will be presented, and students will define and explore current uses of digital literacies to create, as well as improve lessons and classroom experiences.

Student Learning Outcomes

1. Students will be able to determine ways to utilize and implement technology and digital tools into literacy instruction.
2. Students will utilize digital literacy tools that can be integrated into multidisciplinary subject areas.
3. Students will create and modify curriculum in a manner that addresses students' social literacy habits and academic literacy development.
4. Students will gain strategies to evolve and develop literacy lessons and curriculums as technology and popular culture changes with time.
5. Students will gain knowledge and/or a definition of what digital literacies mean and how they are used in current public-school settings (Examining TEKS, Society for Technology in Education (ISTE) standards, National standards, etc.).
6. Students will learn a variety of authentic and relevant ways in which literacy stakeholders can enhance literacy engagement inside and outside of classroom settings.

TEA Digital Literacy Requirement:

TAC 228.57(c) The following subject matter shall be included in the curriculum for candidates seeking initial certification in any certification class:

(8) Instruction in digital learning, virtual instruction, and virtual learning as defined in TEC 21.001, including a digital literacy evaluation followed by a prescribed digital learning curriculum. This course will have an assignment focused on:

(C) Cover best practices in:

- (i) assessing students receiving virtual instruction, based on academic progress; and
- (ii) developing a virtual learning curriculum

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students will need the following technical skills: Use of the learning management system (D2L), Microsoft Word and PowerPoint, presentation and graphics programs, formation of a beginner level blog website, and the use of research databases.

Instructional Methods

Students will be exposed to mini/pocket virtual lectures, cooperative discussion groups (Virtually), online meetings/conferencing/breakout room meetings (if necessary for initial course kickoff), and flipped instruction methods (participation/discussion).

Student Responsibilities or Tips for Success in the Course

- 1. REQUIRED READING:** Students are required to read the chapters/articles in the course readings. In doing so, students will be more prepared to engage in the content and assignments covered in the course.
- 2. EXPECTED HOURS OF OUTSIDE WORK:** For each 3-hour course, expect to spend 3-6 hours per week in reading, assignments, and projects.
- 3. WRITTEN WORK:** All work turned in must be typed, 12 pt. font, double-spaced when turned in. All references must be cited in APA 7th edition format.
- 4. PARTICIPATION and PROFESSIONALISM:** Students are encouraged to attend online meetings/classes (when offered)— if they cannot attend, no problem-- a recording of live class sessions will be provided. Students are also expected to participate in class discussions, communicate with the instructor, attend online office hours when help is needed, and collaborate with peers. Students should represent themselves in a professional manner and treat their peers and instructor with respect. Remember, your work/assignments and interactions with others represent you!

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Total points corresponding to the final letter grades

A = 450- 500 Points

B = 400- 449 Points

This is an overall guide. The *syllabus/schedule are subject to change.*

C = 350- 399 Points

D = 300- 349 Points

F = 299 & > Points

Weights of the assessments in the calculation of the final letter grade.

Example:

Assignments	60%
Discussions	20%
Final Exam	20%
TOTAL	100%

Assessments

Students enrolled in the course will complete the following assignments:

1. **Discussion/Engagement Activities:** Students will complete two activities per week that allow them to demonstrate their knowledge of readings (articles, curriculums, lessons) and videos (lectures, demonstrations, etc.). This will be done on the discussion board, or other interactive forum in which the entire class can share and collaborate. (*Each assignment is worth 10 points; 8 Discussion/Engagement activities = 80 points total*)

2. **Application/ Technology Tool Top Five:** In order to stay relevant and engaging, educators need to know the most current tools to engage their students. For this assignment, students will search for, then create a list of, and give a brief summary of the five best apps and/or digital resources for teachers to incorporate into literacy lessons. This assignment should be tailored to or focused on the grade level or subject area in which the student currently works in or seeks to serve in. At least one of these tools should address assessment and academic progress using virtual instruction. (*Worth 20 points total*)

3. **“Create Your Own” Mini PD Presentation:** Using the course text, you will select the most important component from your assigned chapter, and present a short session (as if you were presenting to other educators). Choose the top three points from your selected chapter, and in a presentation format other than a traditional PowerPoint or Google Slides (can be, but not limited to, a short video, commercial/infomercial, storyboard, Canva video, Prezi, or another presentation platform or forum). (*Worth 100 points total*)

4. **Lesson Plan/Curriculum Remix:** Students will take a lesson plan or curriculum document from their current or ideal setting and “remix” curriculum documents or lesson plans to create a virtual learning curriculum using the Curriculum Remix checklist form (provided by the instructor). Three components will be turned in: the original lesson, the remixed lesson, and a video with rationale/explanation/justification of changes. (*Worth 200 points total*)

This is an overall guide. The *syllabus/schedule are subject to change.*

5. **Final Examination:** Students will create a scholarly, research-supported essay related to the definition of digital literacies and how using popular culture and technology within lessons and curriculum can positively benefit and impact students' academic journeys. Both a written essay and a creatively formatted summary of the essay will be turned in. (*Worth 100 points total*)

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by East Texas A&M University have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

Interaction with Instructor Statement

Your interaction with the instructor of this course is very important to your success. Please communicate via email or text if you are having any issues or have any questions, and your professor will make necessary steps to provide support and clarification. The instructor's contact information is at the top of this syllabus.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

1. **ATTENDANCE** is monitored by your viewing and completion of module content in D2L (This can be monitored by your professor). **Participants are expected to participate actively and constructively. Your attendance and participation will impact your grade, particularly if you are on the borderline of a grade.** Contact the instructor (via email) if you anticipate any issues that will interfere with your participation in the online course, and give the reason explaining the situation. This is a common courtesy that is expected by all teachers. It is also part of building the "community of learners" we need in our online environment. We are trying to encourage professional development and life-long learning skills. Remember: **Class activities and group discussions cannot be made up**; therefore, reinforcing the idea that participation and communication is important.

Confused on an assignment? CHECK THE WEEKLY UPDATES/AGENDA and D2L first. You are responsible for obtaining class materials/assignments/notes and being prepared for any online class meetings. If you are unable to make an optional online meeting, it is your responsibility to review the necessary materials and assignments when the professor posts the replay of the meeting.

2. **LATE WORK** must be turned within a week of the student's return to daily activities from illness to earn credit. Check D2L for the weekly updates/agenda to see what you have missed. Students must get assignments from the instructor, or from a peer if they miss any synchronous instruction. If work is late and is unexcused, a late penalty will be deducted (10%) for each day (up to 5 days). **Due to pandemic situations, some flexibility in this policy will be at the professor's discretion.*

3. **MISSED EXAMS** Students will only be allowed to make up missed exam if they inform the instructor of the reason for their missed submission and have a written excuse. If a late submission excuse is not submitted and the submission is unexcused, students may take the exam and earn a maximum of 70% (70 points out of 100).

This is an overall guide. The *syllabus/schedule are subject to change.*

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance in D2L and via email.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).
