## Course Description

### COURSE OVERVIEW AND OBJECTIVES:

This course is geared towards teaching students the fundamentals of project management based on the Project Management Body of Knowledge developed by the Project Management Institute. In particular, students will learn about scope, time, cost, quality, human resource, communication and procurement management and develop a comprehensive project plan accordingly.

This course aims to improve students understanding of the concepts, principles, problems, and practices of project management. After completing this course, students should be able to:

- Define key concepts and explain the fundamentals of project management.
- Apply PM tools and techniques at the major stages in the project life cycle.
- Conduct initiating and project planning activities, including project scope, costs projections, and timelines.
- Implement processes for managing resources, communication, quality, and risk.
  - Demonstrate effective project execution and control techniques and conduct project closure activities.

*The syllabus/schedule are subject to change.*

# COURSE REQUIREMENTS

## Minimal Technical Skills Needed

Using the D2L learning management system, using Microsoft Word, Excel, and PowerPoint.

## Instructional Methods

This course is delivered in an online format. You will find the majority of the information and materials that you will need to complete the course in this syllabus and on the D2L course management website.

## Student Responsibilities or Tips for Success in the Course

There is a combination of group and individual tasks required for this course. In addition, there are several graded assignments that will require you to log in regularly into the course website and participation is expected.

## GRADING

Component	Type	Value
Assignments	Individual	70%
Final Project	Individual	30%
<b>Course Total</b>		<b>100%</b>

### PROJECT ASSIGNMENTS:

There are 7 Assignments that will allow you to apply project management skills.

### FINAL PROJECT:

The final project allows you to use all of the knowledge gained from the assignments to manage a simulated project.

### GRADING SCALE:

A	90 – 100%	D	60-69%
B	80 – 89%	F	Below 60%
C	70-79%		

Incomplete - Must be previously agreed upon by student and instructor.

Withdrawal - Must be initiated by the student administratively.

## Assessments

### ○ Assignments (General Comments):

1. **Submitted assignments must be correctly formatted and free of grammatical and stylistic errors.** Students should have at least some skill with software for word processing, spreadsheets,

*The syllabus/schedule are subject to change.*

databases, graphics, and presentations, and with web browsers and search engines. Spelling and grammatical errors will detract from your grade!

- 2. Assignments must be turned in on time.** Assignments are due at the **date** and **time** listed. All work and assignments for the entire course will be available on the first day of class. While the syllabus designates specific dates for which work is assigned, you do not have to wait until the "assigned" date to start working on it (or to turn it in). In other words, you can work at your own pace as long as you meet the due dates. I suggest you set a calendar of when to work on assignments based upon your schedule, how long it takes you to complete assignments, and the assignment due dates. Start working on each assignment as soon as you possibly can and make sure that you have the all assignments submitted by the specified due dates. I have outlined a "suggested" schedule that I think would help you maintain a good pace, but you don't have to follow it. However, you **MUST** turn in all written assignments **ON TIME**. You will have until **11:59 PM Central Time** to submit the work that is listed in the far right, "Work Due" column of the course schedule. I will **NOT** accept late assignments. If you do not meet the 11:59 PM deadline (even by one or two minutes), you will receive a 0 for that assignment.

**Late Assignments Will Only Be Accepted If You Obtain University Approved Documentation for Your Excuse:** There are no make-up assignments for poor performance on a previous assignment.

## TECHNOLOGY REQUIREMENTS

### Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

*The syllabus/schedule are subject to change.*

Microsoft Word is the standard word processing software, Microsoft Excel is the standard spreadsheet software, and Microsoft PowerPoint is the standard presentation software. Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft Office, you can check with the bookstore to see if they have any student copies.

## **ACCESS AND NAVIGATION**

*The syllabus/schedule are subject to change.*

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or [helpdesk@tamuc.edu](mailto:helpdesk@tamuc.edu).

**Note:** Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.
