### **ATTENDANCE**

FIRST ABSENCE: The student will receive an email and a copy goes to Veronica Vaughan

SECOND ABSENCE: The student will receive an email and a copy goes to Veronica Vaughan who will contact the student. (It is strongly recommended not to miss a summer class.

Two classes missed will result a reduction in grade.)

THIRD ABSENCE: Veronica Vaughan emails the student that they have failed the course.

Two tardies of 10 minutes equals one absence.

A tardy of 60 minutes equals one absence.

Leaving before class is dismissed is an absence.

If a student is OVER 10 MINUTES late for the final, a full grade will be deducted from his or her final grade.

If a student does not show up for the final they automatically fail the class.

### **SPECIFIC CLASS POLICIES**

Students **MUST** keep up with the assignment schedule in order to pass this class. PROGRESS THROUGH THIS COURSE IS THE RESPONSIBILITY OF THE STUDENT.

No extensions or exceptions will be granted except in cases of extreme hardship or medical necessity. Professional work demands do not constitute extreme hardship exemptions.

### **SYLLABUS UPDATE POLICY**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester.

Any changes made to the syllabus will be announced in advance.

### **GRADING GUIDELINES**

Grades will be assigned according to the following scale:

A = 90 - 100: Work well above the general class level, evidence of participation in related activities

Outside of the classroom, thoughtful participation in classroom discussion and critique

Superlative work: careful attention to craft and presentation. Originality of idea and execution work together. Goes beyond merely solving the problem - one who performs at this level is visibly outstanding, work is outstanding in every respect.

B = 80 - 89: Work above the general class level, participation in classroom discussion and critique.

A few minor changes could have been considered and executed to bring piece together. Goes beyond merely solving the problem. Above average: solution to the problem and idea well planned. Execution is well done.

C = 70 - 79: Average work, minimal requirements met

Average or a bit above: slipping in levels of originality, craft and presentation. The piece does not work well as a unified whole or statement yet effort was made. You have solved the problem but in a relatively routine way.

D = 60 - 69: Work below class average, lack of participation and/or poor attendance

You have solved the problem but there is much room for improving your skills and developing your concepts further.

You have neglected the basic craftsmanship skills and breadth and depth of idea development. You were unable to meet mini deadlines. Represents careless and/or incomplete effort. Work is substandard.

F = 0 - 59: Inferior or unacceptable work and effort, work not turned in, or failure to attend class.

### **GRADE EVALUATION**

Your final grade will be based on an average of all assignments, attendance and in-class participation. The participation grade is based on the application of course concepts, class involvement, and both a desire and capacity to show progress and meet deadlines. Note!!! Failure to deliver the final exam project will result in an automatic semester grade of F. Grades will be discussed on an individual basis by office appointment only – not in class.

### **HOW TO PREPARE YOURSELF FOR CLASS**

An open mind

A desire to explore

A willingness to participate and, by doing so, enrich the experience for yourself and others

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

If the instructor allows AI to be incorporated into a solution, the student must acknowledge and credit its use and provide the prompt used to create the output.
