COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings

Textbook(s) Required: No textbook purchases are required for this course. We will use free online reading and resources, which will be linked in the D2L course each week.

Software Required: Students will need access to a standard office suite (e.g., Microsoft Word or compatible software) for written assignments. A reliable web browser is also required to access the D2L course and any linked online content. Some assignments may involve creating short videos, which can be completed using free or built-in recording tools such as [ScreenPal](#) or similar software. Please note that ScreenPal is provided as an example; students may use any comparable video capture program that meets the assignment requirements.

Optional Texts and/or Materials: None

Course Description

This course investigates effective strategies for supporting all K–12 students, with a special emphasis on the needs of emergent bilinguals. Content includes foundational language acquisition and literacy skills, the application of trauma-informed practices, and the design of targeted intervention supports for diverse learners.

Student Learning Outcomes (SLOs)

1. Explain foundational theories and processes of language acquisition for emergent bilingual learners (EBLs).
2. Design linguistically accommodated instruction aligned with ELPS and TEKS to support academic language development.
3. Integrate content-based language instruction across subjects to promote comprehension and fluency.
4. Apply inclusive and differentiated instructional practices that proactively support all learners, including students with disabilities.
5. Assess linguistic and academic progress of EBLs through authentic, formative, and summative measures.
6. Reflect on personal instructional practices to improve cultural responsiveness and student engagement in linguistically diverse classrooms.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students need to be comfortable:

- Navigating and using the D2L platform,
- Accessing linked resources and readings on the internet,
- Conducting internet searches/browsing,
- Using basic office suite software such as word processing,
- Creating basic multi-media presentations such as short videos, slide presentations, and informational flyers with images,
- Viewing, downloading, and electronically printing PDF documents as needed

Instructional Methods

This course consists of several kinds of tasks that are designed to help you apply content to the real work of teaching. Students will be expected to demonstrate their understanding through their work products and quizzes. Within each unit you will have several tasks. The tasks for each week are listed in the content tab of the D2L course. The final grade will be calculated from these assignments using the percentages listed in the “Grading” section of this syllabus.

Student Responsibilities or Tips for Success in the Course

Professionalism and Ethical Behavior

As a future educator, you are expected to interact with your instructor and peers in a professional manner. Please be courteous to classmates in online discussions, even when giving constructive feedback. Adhering to the [Educators' Code of Ethics](#) and university policies related to academic honesty is a baseline expectation for behavior.

Begin each module early in the week.

Did you know that college students typically underestimate how long it takes to complete their work? This can lead to late assignments, even when we have the best intentions. Starting early and working toward finishing early each week is the secret to finishing on time with a quality work product (because you are giving yourself that extra time to get it done).

Ask questions early and often.

Instructors want to support you, but this is difficult if you don't communicate about your

struggles. Please reach out to the course instructor with questions about assignments. You can set yourself up for success by asking your questions early enough to use the instructor's feedback before an assignment is due.

Designate a study space and time(s) that are free from distractions. Did you know that multi-tasking is less effective for learning than paying full attention to one task at a time? Use your brain power more efficiently by finding a place free from distractions for your coursework. This can mean a quiet room or place in the library, turning off your phone notifications, etc.

The syllabus/schedule are subject to change.

Don't cram. Space out your work instead!

You will learn more effectively if you work for 45 minutes to an hour at a time instead of a marathon study session. This can be difficult to schedule with our busy lives, but the amount of information you retain will be improved if you can do some work each day instead of all at once.

READ.

AI is a fantastic tool that can be useful for summarizing information. However, part of building your understanding through reading is mentally interacting with the text – asking questions, making predictions or connections, summarizing information as you go, etc. If you have AI do this for you, you're going to be missing out on the mental processes that make your learning stick!

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Weights of the assessments in the calculation of the final letter grade.

Assessments

PBA	SIOF lesson plan: Differentiating for Emergent Bilinguals	EDCI 412 PBA
	Students will ensure high levels of learning, social-emotional development, and achievement for all students through knowledge of students, proven practices, and differentiated instruction by creating an SIOF lesson plan to differentiate for emergent bilinguals. Students will demonstrate knowledge of the foundational concepts and factors that influence development, specifically practices that build on home language systems to develop academic and social skills for Emergent Bilingual students. Students will plan instruction for a chosen grade level (prekindergarten-12th grade) utilizing the SIOF lesson plan to plan learning experiences and design assessments responsive to differences among students that actively engage students in the learning process and promote learning among all students. Students will include differentiated activities to meet the needs of English language learners at different English proficiency levels by incorporating the English language Proficiency Standards for reading, writing, and academic vocabulary.	
Alignment	Teacher Preparation Standards: 1.C.i-iii ELPS Standards: (b)1-4, (c)4. A-K, (c) 5.A- G, (d) 3-6 EC: PK-3 Test Framework: I.001.D PPR Test Framework: III.008.H-J, I.002.I STR Standards: (b)1,(b)6, (c)3, (c)4 STR Test Framework: II.003.H-I 19 TAC §228.35(b)(2) • C-proactively implementing instructional planning techniques and inclusive practices for all students, including students with disabilities; • K-ensuring high levels of learning and achievement for all students through knowledge of students, proven practices, and differentiated instruction	

Assessment in this course emphasizes the design of equitable, responsive instruction for all learners, particularly emergent bilinguals. Candidates complete a performance-based SIOF Lesson Plan integrating ELPS, academic vocabulary development, and differentiated strategies for language and content learning. Formative assessments such as peer feedback, reflections, and micro-teaching build toward the final SIOF Lesson Plan Presentation, which demonstrates mastery of inclusive, trauma-informed, and linguistically responsive instructional design aligned with PPR Standards and Commissioner's Teacher Standards (2.B, 5.C.i, 6.A.i).
