A theoretical examination of social and ethical issues affecting sport, the sport industry, and sport managers in the global marketplace. Topics include race and ethnicity, gender, youth sport, religion, deviance, athlete welfare, culture, politics, economics, technology, globalization, and other current or emerging issues.

Course Purpose

This course examines the relationship between sport and society across local, national, and international settings. Students will analyze how social institutions, cultural values, governing bodies, media, commerce, and public policy shape the production, consumption, and experience of global sport.

Student Learning Outcomes

Explain how sport influences individuals, groups, institutions, and society.

Compare regional, national, and international sport cultures and traditions.

Analyze social and ethical issues affecting athletes, organizations, sport managers, and communities.

Evaluate the influence of global governing bodies, events, media, economics, politics, and technology on sport.

Apply knowledge of global dynamics as an informed and engaged citizen in an interconnected and diverse world.

Course Organization and Content

Course topics will generally address major themes in the sociology and globalization of sport. The instructor may add, omit, combine, or reorder topics to respond to current events and the progress of the class. Assignment instructions and due dates will be communicated in class and through the online course site.

Evaluation and Grading

Final grades will be based on four equally weighted areas:

Course Component	Weight

Assignments and Applied Work	25%
Examinations, including the Final Exam	25%

Grading Scale

A = 90–100% B = 80–89% C = 70–79% D = 60–69% F = below 60%

Assignments and Examinations

Written assignments must use 1-inch margins, double spacing, and a readable 12-point font. Use APA 7th edition when sources are required.

Quizzes and knowledge checks assess understanding of assigned readings, lectures, current events, and course concepts. Discussions and participation require informed, respectful engagement with complex social issues and differing viewpoints.

Assignments and applied work connect social theory to cases, current events, global sport organizations, and professional practice.

The course includes examinations and a traditional comprehensive final examination. Specific formats and coverage will be announced in advance.

Late Work

Students are expected to submit all work by the stated deadline. Late work may be accepted only in rare circumstances and at the instructor's discretion. Students should contact the instructor as soon as possible when serious circumstances may affect completion of coursework.
