COURSE REQUIREMENTS

1. Complete all required and supplemental readings and be prepared to discuss online.
2. Complete all class assignments within specified time frames.
3. No late assignments will be accepted.

The syllabus/schedule are subject to change.

Minimal Technical Skills Needed

This is an online course, and all instruction will be conducted in D2L. Students will be required to view/read lectures, participate in online discussions, and complete quizzes and assignments. You will need to utilize other technologies such as Microsoft Word, PowerPoint, etc.

Instructional Methods

This is an online course and utilizes D2L to engage students. Students are expected to regularly log into the course website to read, participate and complete all activities. The weekly assignments open on Monday and close the following Sunday to ensure timely completion.

Student Responsibilities or Tips for Success in the Course

As a student in this course, you are responsible for the active learning process. Expectations of Fall 2025:

1. You are expected to always display professionalism. Be respectful of your professor and peers. Be open to feedback, as you will receive this throughout the program.
2. Prepare for classes and discussions. Complete all readings in a timely manner.
3. Complete all assignments by the deadline.
4. Adhere to the university student code of conduct.
5. Participate. In the online format, you are expected to participate in all online discussions/activities. This is crucial to your learning.
6. All writing assignments must be done according to APA 7th edition standards.
7. Regularly check your University email. My suggestion is to check this at least once a day as your instructors and others from the department and University may contact you.
8. Begin your readings ASAP. Sometimes it may take more than one attempt to digest the material.
9. Deadlines are the last possible moment something is due—not the first moment to start. Work ahead. I realize this may not always be possible; however, when you can, do so.
10. Be open to the process. This degree takes time, work, effort, and growth.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

The syllabus/schedule are subject to change.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

The syllabus/schedule are subject to change.

Students are expected to log in to D2L for all assignments. No late assignments will be accepted.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: <https://www.britannica.com/topic/netiquette>

Academic Integrity

Students at Texas A&M University-Commerce are required to maintain high standards of integrity and honesty in all of their scholastic work. Use of A.I. content as your own and improperly citing or failing to cite a quote or reference is academic dishonesty, and will result in disciplinary action up to and including failing the assignment, and in severe cases, failing the course and a recommendation for further university disciplinary response. If you have questions about requirements or academic integrity, please, always contact your instructor first. For more details and the definition of academic dishonesty, see the following procedures:

AI use in course [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
