Title: Financial Markets and Institutions

2024 Release (You can also have an older edition of this book from eBay or Amazon)

ISBN: 978-1-265-06834-8

Publisher: McGraw Hill Education

Required for Calculations:

A financial calculator and MS Excel is required for this course. Texas Instruments BA II Plus is a recommended financial calculator. Calculators must manipulate irregular cash flows.

Course Description

This course covers different aspects of financial markets, institutions, and instruments. The course begins with an overview of the structure and functions of financial markets and institutions as we consider the role of political, social, legal, and regulatory forces in financial decision-making. The course will expose students to changing global financial conditions and ethical considerations in the real world.

Course Learning Outcomes

At the conclusion of the course, the students will be able to reflect:

1. An understanding of financial markets and the institutions that operate in these financial markets.
2. An understanding of the mechanics of operation of the whole financial system.
3. Analyze the impact of global financial conditions and consequences thereof.
4. Understand the basic operations of commercial banks and how banks finance their operations.
5. Identify and explain the characteristics and functions of major financial instruments, including stocks, bonds, money market instruments, and other securities traded in financial markets.

Course Learning Outcome 3 addresses COB Student Learning Objective 4: Students will identify and evaluate global business challenges.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

The syllabus/schedule are subject to change.

D = 60%-69%

F = 59% or below

ASSESSMENTS

Course Evaluation:

Mid-term Exam	30%
Final Exam	30%
Discussion Posts	10%
Short Paper	10%
Homework Quizzes	20%

Exams

There will be two exams in this course. **There will be NO automatic makeup exams.** Missing exams will receive a grade of zero. If you have a valid excuse for missing either of the tests, you must contact me with a written justification and request for a makeup 10 days **beforehand**. In most cases I will require students to provide me with additional documentation to justify their inability to take the exam. Please note that a simple note indicating that you were seen at the health center the day of the exam **does not** provide sufficient documentation. Excuses will be granted if the student is unable to take the exam because of serious illness or injury, or a significant personal or professional commitment. Excuses will not be granted for trips to sporting events (unless you are representing the university) or any other reason. In all instances, the instructor reserves the right to deny any request for a makeup exam if she considers the reasons provided by the student to be insufficient.

Short Paper

There will be a short paper in this course. The paper will count toward 10% of the course grade. The topic for the papers will be assigned as the course progresses. The rubrics and other details for the paper will also be provided along with the topic.

Discussions

There will be 6 discussions in total. Each week (except exam weeks) will have one graded discussion assignment in D2L. For the discussion, you are required to post one meaningful comment pertaining to that week's content, and one meaningful reply to a peer's post about each week's content. These two weekly discussion posts are worth a total of 5 points together. To get full credit, your posts must each:
The syllabus/schedule are subject to change.

- Be at least 3 sentences and 50 words in length.
- Be clearly related to the content of this week's module.
- Be accurate and/or consistent with the information presented on D2L, the textbook, and the instructor about respective week's module.
- Be appropriate and respectful to classmates and the instructor.
- Be written in clear and correct language without mistakes in grammar, spelling, punctuation, or wording.
- Be original or with proper credit given to any references.

Some examples of good posts are:

- Your personal and professional experience with the topic of the weekly module. If you work in the industry, then any non-confidential experiences from your job would make great posts to share with the class.
- Suggestions and links to reliable outside resources on each module topic. Some good places to look for outside resources are YouTube, Yahoo! Finance, Wall Street, and Bloomberg News. Tutorials and examples of financial calculations in Excel can be particularly useful for this course. Be careful to evaluate the reliability of outside resources. There is a lot of useless information about financial markets out there on the internet. If you are unsure about a source's reliability, then try to see if their information is consistent with what is already presented for this course on D2L and in the textbook. Please also take care to see that your outside sources are accessible, to the extent that this is feasible.

Both parts of discussion posts are due by midnight on Sunday of the respective week.

Homework Quizzes

There will be 6 quizzes in total. Each week (except exam weeks) will have one multiple-choice quiz. The quiz will be assigned on Wednesday of every week, and it will be due on Tuesday of the following week.

Use of Artificial Intelligence (AI)

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For The *syllabus/schedule are subject to change.*

an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
