Course Description

Ear Training I is the first in a four-semester course sequence which examines the aural and singing skills of the notation, structure, and development of Western Music. This course content is aligned with the standards established by the Texas Education Code, covering areas such as Music, the Commissioner's Rules, Pedagogy and Professional Responsibilities, Technology, and English Language Proficiency. To review these standards, please visit the Music Education Program D2L Shell and select "Standards and Objectives."

Undergraduate Student Learning Outcomes

Music Theory & Ear Training

Graduating students will analyze and interpret music from aural and notated examples and create original musical ideas with correct terminology and in the appropriate context.

Upon successful completion of Ear Training I, students will be able to accomplish the following in each category:

- Identify all melodic interval types.
- Sing diatonic melodies; including the use of solfeggio.
- Be able to identify, correct, and reproduce harmonic and melodic concepts after a few hearings.
- Demonstrate the same ability in accurately transcribing tonal music from repeated hearings.
- Utilize all these skills to improve performance skills for lessons and ensembles.

Course Requirements

We will sing together every day. There will be frequent dictation and sight singing assignments that mirror your Music Theory course. Ear Training and Music Theory go together to build a strong foundation of Musicianship.

Applicable assigned homework from the Ear Training Workbook needs to be:

- **Completed in pencil**
- **Use legible, readable, tidy handwriting**
- **Scanned as a SINGLE PDF in numeric order**
- **UPLOADED to D2L**
- **By the due date listed in D2L**

Homework not meeting the guidelines above will be graded as a zero.

Some Dictation and Sight Singing homework assignments will be turned in during class on the day on which it is due. Other assignments will be **digitized** in the form of **quizzes (InQuizitives)**. Inquizitives will be automatically graded so that you can see your learning progress.

Dictation Assignmentsthe Ear Training Workbook uses a **Playlist** found in our D2L shell that plays the audio examples for you that accompany the questions of the book. You can listen as many times as you like to the examples when you are working on an Ear Training dictation at home.

Sight Singing Assignments will take place both inside and outside the classroom. These may require you to record a video and upload it to D2L. If so, record one single video file – no you may not play a starting pitch – and upload it to D2L by the due date. Any time you sight sing, you are able to establish the key (a little) for yourself with your voice but not with an instrument.

Late assignments (homework, supplemental work, InQuizitives, in-class quizzes, major exams, etc) will not be accepted for credit unless a previous arrangement of more than 24 hours has been made with the instructor. **All assignments not meeting the guidelines dictated through D2L will be graded as zero.**

To turn in assignments using D2L, go to Course Shell -> Activities tab -> Assignments -> Upload homework document. (Make sure that work is uploaded in ONE PDF legible copy and includes all pages/the entire assignment.)

Cheating will result in failure of the course. Often it may be helpful for students to work on homework assignments with a partner, or in groups. When done correctly, this can serve as a proven method for success for students who may be struggling with a particular concept in class. *However, take care that the completed assignment reflects your own understanding of the material, and is not merely a copy of a classmate or colleague's work.* Doing so will help to ensure that your work efforts in the class are both fruitful (reflecting the very purpose of homework) and intellectually honest.

Class Participation will be prevalent this term via our frequent singing as class! **Attendance will take place at the beginning of each class meeting within the first 5 minutes of class through a QR code. If not present to scan the QR code, you will not get counted as present for the class period, thus counting against your overall Attendance and Participation grade.**

You are encouraged to utilize the **Counterpoint Café** program for tutoring or as a study hall at any time throughout the semester and may be prompted to do so because of poor grades.

Quiz content is assigned and completed online using **InQuizitive**. Failure to do InQuizitive by the due date will result in a zero on the quiz. Failure to complete InQuizitive is often the number one reason students perform poorly.

Exams: Due to the unique nature of ear training, the three exams for this course woven into the daily activities. Below you will find how the grading is organized into two large dictation and ear training areas. There will be at **least three exams** in those areas throughout the semester (Midterm, Final), but your performance on those exams will not separate from your regular performance in the class.

As a student, you are fully responsible for knowing and finding the content of every class that has been delivered in a lecture by an instructor, no matter what.

Grading

A final grade will be calculated using the following scale:

- | | |
|--------------------------------------|--------------------|
| • Attendance and Class Participation | 10% of final grade |
| • InQuizitives | 20% of final grade |
| • Dictation | 35% of final grade |
| • Sight Singing | 35% of final grade |

Grading Scale

A = 90 to 100% / B = 80 to 89% / C = 70 to 79% / D = 60 to 69% / F = 59 and below

Attendance Policy

Regular and prompt attendance and active engagement in the class is expected. The student's attendance grade is calculated by the number of times present divided by the total number of class meetings. Students who are present but do not engage in the discussion may not receive attendance at the discretion of the instructor.

The University Catalog states, "Students are expected to be present for all class meetings of any course for which they are enrolled." Sporadic attendance is a waste of your intellectual and financial resources.

Excused absences, as defined by the Catalog, need to be prearranged with the instructor at least 24 hours in advance. I prefer advanced notification through emails.

Each student is allowed up to 3 unexcused absences over the course of the semester.

"No More Than 3": Students that have a total of **4 absences**, whether excused or not, will either earn a failing grade or will be dropped from the course through means of an administrative drop at the discretion of the instructor due to excessive absences.

Illness Policy

East Texas A&M recommends the use of face-coverings in all instructional and research classrooms/laboratories. Students should not attend class when ill or after exposure to anyone with a communicable illness. Communicate such instances directly with your instructor. Faculty will work to support the student getting access to missed content or completing missed assignments.

Use of Computers and Cell Phones

No computers or cell phones are allowed during class. Technology should be silenced and stored away out of respect for the learning environment, unless approved as accommodation through Student Disabilities Services. Academic Research continues to show the benefits of taking notes by hand as the best way to facilitate memory, attention, and learning.

TECHNOLOGY REQUIREMENTS
