

**FIN 410 (01W) – Analysis of Financial Derivatives
Fall Semester, 2026**

Instructor: Dror Parnes, Ph.D.
Email: Dror.Parnes@etamu.edu
Office Hours: Thursday, 10 AM – 3 PM in BA302
Class Hours: Any time, online course
Course Dates: 8/20/2026 – 12/11/2026

Course Description and Objectives

This course introduces students to the fundamental principles, theories, and techniques used in some of the more common financial derivatives and their respective markets. We will cover hedging, speculation, and arbitrage across equity options, futures, forwards, swaps, exotic options, the Greeks, and foreign currency options. Students will accordingly enhance their analytical problem-solving capabilities in common business environments.

Prerequisites

FIN 400 and a basic knowledge of Calculus, Statistics, and Accounting.

Recommended Textbook

“An Introduction to Derivatives and Risk Management,” by: Don M. Chance and Robert Brooks (editors), Cengage Learning, 13th edition, ISBN 978-0324601206.

We will not strictly follow this textbook. There are topics in the course that somewhat deviate from the book. The textbook can serve as further reading, but all you need for the course are my PowerPoint slides and the practice questions and answers already posted.

Exams and Grading

There is no need to submit any homework practice questions or answers. There will be 3 relatively short exams during the course. First exam: 12 problems for 75 minutes. Second exam: 8 problems for 60 minutes. Third exam: 5 problems for 45 minutes. These exams will cover the most recent lectures, and they will be non-cumulative. Given the course's high intensity, make-up exams are available only to students with verified medical records or other extreme circumstances.

Course Content and Communication

All group communications will take place through ETAMU official website (D2L). If you have specific questions or issues that do not concern the entire class, please email me directly at Dror.Parnes@etamu.edu. I will make every effort to respond in a timely manner.

Grading System

Your final grade will be based on the accumulated score from the 3 exams during the course (note that, in total, there will be $12+8+5=25$ problems, so each one gets 4 points). Once this accumulated score is computed, I will assign a final grade according to: 'A' (from 90 to 100), 'B' (from 80 to 90), 'C' (from 70 to 80), 'D' (from 60 to 70), 'F' (less than 60). *There will be no more optional bonus points or mercy assignments, so make sure to do your best on the exams!*

 We will use quite a lot of calculus, algebra, and statistical methods during the course. I will attempt to clarify these techniques when relevant, but I can only do so concisely. Make sure to refresh your memory with those techniques. The best time to do that was yesterday!

Attendance and general behavior

This is an online course, and students must have high self-discipline. It is your responsibility to listen to the online lectures, to download/print the PowerPoint presentations and the practice questions and answers, and to take as many notes as you can. If you have additional questions, catch my attention right away (likely via email) or come to discuss it during office hours (please notify me in advance). Please do not wait until the last moment before the exams. We will follow a “progress at your own pace” approach; there are no strict dates for the three exams, but you must complete all of them before the end of the semester.

Zoom Meetings

There will be several Zoom meetings during the semester, so please follow the announcements on D2L for dates, times, and content.

Students with Disabilities

The Americans with Disabilities Act (ADA) is a Federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services, Gee Library Room 132
Phone: (932) 886 – 5150 or (932) 886 – 5835
Email: Rebecca.Tuerk@tamuc.edu

Scholastic Dishonesty

Academic integrity is the cornerstone of the university. Any student, who attempts to gain an unfair advantage over other students by cheating, will fail the course and be reported to Texas A&M University-Commerce. “All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment” Student Handbook.

Nondiscrimination Statement

Texas A&M University-Commerce will comply in the classroom, and in online courses, with all Federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information, or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to (<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>) and/or consult your event organizer). Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

Counseling Center

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center’s crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

AI Use Policy

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that have the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided, the student should assume that the use of such software is disallowed. In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
