SYLLABUS

COURSE CONTENT

This is your introduction to visual communication. Adobe Illustrator will be used to produce a series of two and three dimensional design projects that explore the creative process and applications of VisCom. We will look at project management, work flow, file organization and stress the correct production methods for producing digital projects.

Your semester will also contain software tutorials, done both in and out of class, quizzes, a midterm, and a final design project.

COURSE OUTCOMES

- Introduce and reinforce the creative process and methods for problem solving.
- Develop basic to intermediate skills in Adobe Illustrator.
- Strengthen application skills in correct software tool usage and document setup.
- Gain an understanding of professional expectations, presentations and processes.
- Deepen the students visual well.
- Incorporate visual vocabulary into critiques and project conversations.
- Apply basic principles of design in composition of work.
- Execute projects with quality craftsmanship in both digital files and printed comps.
- Familiarize students with basic branding principals in project development.
- Appreciate the nuances and techniques used in professional graphic design. We will focus on craft and the production of assets in a timely manner. Attention to details, craftsmanship & selecting appropriate image / font / colors will be stressed as part of the creative design process.

CLASS PARAMETERS

You are expected to work in class as well as perform outside of class work.

You are expected to come to class prepared to work on the current assignment, this includes but is not limited to remembering the project supplies needed. Not being able to make progress during class due to lack of materials will reflect in your mini-deadline grade.

All projects are given with weekly steps to be accomplished by the beginning of the next class meeting. Mini-deadlines are part of the overall assignment and play a major role in your projects final grade.

You may be required through out the semester to print your assignments in color and purchase items to create assignment comps. Please budget accordingly. Projects must be comped in color to be considered complete.

All work is due on the assigned date. Projects are due at the beginning of class. **NOTE: Submit your project to D2L one hour before class.** If you submit it less than an hour before class, the instructor may not have enough time to print your work for the class critique.

For a project to considered complete, the specified electronic portion placed, as directed, onto the common drive and a hard copy provided, as specified in the assignment sheet. Late work is accepted at **instructors discretion.**

LATE WORK:

up to 7 days late - minus 1 grade point,
8 - 14 days late - minus 2 grade points,
More than 14 days late - the work will not be considered for a grade.

During class you may not work on other course projects. If a student is caught using email or social media of any kind during lecture or lab time, the entire class gets a fair warning, no second chance will be issued. On the second occurrence, the entire class received an F as their daily grade.

LAB INFORMATION

We will walk through best practices for file management in class. You may not eat in the lab.

Please make sure cell phones are silenced. No headphones on during class unless it is individual critique time.

Always Leave The Lab Clean.

ATTENDANCE

FIRST ABSENCE: The student will receive an email from the VisCom admin.

SECOND ABSENCE: The student will receive an email from the VisCom admin.

THIRD ABSENCE: VisCom admin emails the student that they have failed the course.

A tardy is 15 minutes late.

Two tardies equals one absence

A tardy of 60 minutes equals one absence.

If a student is OVER 10 MINUTES late for the final, a full grade will be deducted from his or her final grade.

If a student does not show up for the final they **automatically fail** the class.

INSTRUCTOR CONTACT AND RESPONSE TIME

Antonina Shvets

Antonina.Shvets@etamu.edu

Please use your university email as your primary source of contact. If your email is more than a short paragraph, please consider making an appointment.

Communication from students will be responded to within a reasonable time during the work week. Weekend communication will be handled the next business day unless noted. Due to the high volume of email that is received an important message may be missed, if an important email has not been responded to in 2 days, please send again.

OFFICE HOURS

Email for an appointment / zoom meeting.

SYLLABUS UPDATE POLICY

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

WORDS OF ADVICE

Come to class engaged, prepared with homework and ready to work with an open mind. The first six weeks of Class 2313 includes intensive adobe software lessons. It is highly recommend you make an effort be ontime and do not miss any classes.

GRADING GUIDELINES

Grades will be assigned according to the following scale:

A — 90-100

—Work well above the general class level, evidence of participation in related activities
—Outside of the classroom, thoughtful participation in classroom discussion and critique
Superlative work: careful attention to craft and presentation. Originality of idea and execution work together. Goes beyond merely solving the problem - one who performs at this level is visibly outstanding, work is outstanding in every respect.

B — 80-89

—Work above the general class level, participation in classroom discussion and critique
Fine work. A few minor changes could have been considered and executed to bring piece together. Goes beyond merely solving the problem. Above average: solution to the problem and idea well planned. Execution is well done.

C — 70-79

—Average work, minimal requirements met
Average or a bit above: slipping in levels of originality, craft and presentation. The piece does not work well as a unified whole or statement yet effort was made. You have solved the problem but in a relatively routine way.

D — 60-69

—Work below class average, lack of participation and/or poor attendance
You have solved the problem but there is much room for improving your skills and developing your concepts further. You have neglected the basic craftsmanship skills and breadth and depth of idea development. You were unable to meet mini deadlines. Represents careless and/or incomplete effort. Work is substandard.

F — 0-59

—Inferior or unacceptable work and effort, work not turned in, or failure to attend class.

In addition to exercises and projects, your final grade will also be based on critique participation and application, work ethic, and attitude.

X = Incomplete:

Students, who because of circumstances beyond their control are unable to complete their course work can, upon approval of the instructor, receive a mark of "X" (incomplete) in all courses in which they were maintaining passing grades. When an "X" is given for a grade in a course, the credit hours and grade point averages are not included until a grade is received which can be up to one year. If the "X" is not removed by that time, the grade becomes an F, and the hours are included in the number of hours attempted. Recording a grade of "X" requires the filing of a plan for completion. The plan will be submitted with the official grade record sent to the department head who will forward it to the Dean's office. The plan will include why the grade was given and steps necessary for the student to receive the final grade. If the necessary action to complete the X plan has not been completed by the next time the course is offered the student will register to take the course again.

AI POLICY

East Texas A&M acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text and image, or suggest replacements for text and image, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

If the instructor allows AI to be incorporated into a solution, the student must acknowledge and credit its use and provide the prompt used to create the output.
