My Type: A Book About Fonts Designing

Designing With Type

Thinking With Type

A Type Primer

This course will introduce the basic concepts of typography and its role in graphic design as a visual language.

Course Description

Course content will address type history, anatomy, terminology, formal, and aesthetic issues, and tools and materials of the trade. Thumbnail ideation, rationale writing, type manipulation, creative session critiques, and computer-generated comprehensives will be explored through weekly assignments.

Course Objectives

- Gain an understanding of typographic architecture from a single letterform to an entire page layout.
- Understand the formal and aesthetic issues in type selection.
- Introduction to the design process from pencil thumbnails to final computer comprehensives.
- Strengthen the knowledge and application of design elements and principles with respect to graphic design.
- Become fluent in your verbal design-language skills through class critiques.
- Develop a basic understanding of typographic form relationships in logotype and lettermark design process.

Course Structure

The class will be a combination of lecture, with outside class exercises and assignments. The weekly schedule will be rigorous and meant to mimic a “real-world” professional practice environment. A commitment to many hours of homework will be necessary to achieve the goals for this class and its completion. A basic understanding of typography will play a crucial role in all of your future design endeavors. This may very well be the most important class that you undertake in your design education.

All assignments must be uploaded to D2L in the respective assignment folder 30 minutes before the start of class. If you do not turn your work into D2L 30 minutes prior to class a one letter grade will be deducted from the final assignment.

Assignments: assignments are subject to change based upon the progress of the class

Type Origin	14.3%
Blues Lecture Series Poster	14.3%
Mid Term Exam	14.3%
International Travel Magazine, Interactive	14.3%
Participation Grade	14.3%
BYOL (Bring Your Own Laptop)	14.3%

Critique

- When presenting multiple solutions, please combine concepts into one PDF containing multiple pages.
- Multiple single page PDF's will not be accepted. When presenting pencils, students who don't have access to a scanner can use any free phone scanning app, such as xScan or Adobe scan in the App Store.
- Make sure that the image has enough contrast to be seen online. This can be done in the app software or with Photoshop. The goal is to provide an image that can receive a response.
- Each student will have a PDF of their assignment uploaded to D2L as well as accessible on their machine for critique.

Attendance

- Attendance will be taken at the start of class
- You may be absent from class twice.
- In your first absence, you will receive an email warning
- In your second absence, you will receive an email warning
- In your third absence, you will receive an F in the class. If you wish to drop the class, you will receive a drop/fail.
- Two tardies of 15 minutes or more equal one absence.
- Absent is absent.
- A tardy of 60 minutes equals an absence.
- Two late returns from a break of more than 10 minutes equal one absence.
- If a student is over 10 minutes late for the final, a full grade will be deducted from his or her final grade.
- If a student does not show up for the final, they automatically fail the class.
- There is no distinction between excused and unexcused absences.
- You must turn in your work to D2L if your absent.

Supplies: Students will need to have all of their supplies by the first class meeting. Bring the bolded items to every class period.

Class Policy

Violations of class policy with respect to the unauthorized use of computers, cell-phones, ear-buds, or other technology will result in point deductions from the current assignment. The Instructor reserves the right to alter this policy if class disruptions become an on-going problem and class distraction.

Grading Scale

A 90 to 100 points: Excellent (superior effort and results above and beyond)
B 80 to 89 points: Good (significant effort and hard work)
C 70 to 79 points: Average (minimal class requirements met)
D 60 to 69 points: Below Average (below class average expectations)
F 50 to 59 points: Poor (inferior work and attitude)

In addition to the project, quiz, and test grades, students' final grade will also be based on critique participation and application, work ethic, and attitude. All exercises and projects are given with weekly steps to be accomplished by the beginning of the next class meeting. Meeting these mini-deadlines is part of the overall assignment and plays a major role in project grades. All work is due on the assigned date. All projects are due on the date and time given. **Late work is accepted at instructors discretion with one letter grade off for everyday assignment is late. You are responsible for turning in work on time, regardless of attendance.**

Grade Evaluation

Your final grade will be based on an average of all assignments, attendance and your participation grade. The participation grade is based on dedication to methodology application, conceptual thinking ability, craftsmanship, daily class involvement, and contributions to your classmates, as well as both a desire and capacity to show progress and meet deadlines from week to week. Grades will be discussed on an individual basis by email for a Zoom appointment only—not in a class, please.

Words To-The-Wise

Show up, be committed to your work, and immerse yourself in the process. It is your show to enjoy!
If you fall behind, run like hell to catch up! Also, please email for a Zoom appointment. I am here to help.

AI use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
