Textbook(s) Required

Free E-textbooks are required. No purchase is necessary. We will use an open-source macroeconomics textbook: <https://open.umn.edu/opentextbooks/textbooks/33>. Additional readings may be supplied on the web or in class.

Software Required

Access to myLeo Online (D2L), university email, a reliable internet connection, and Microsoft Office.

Optional Texts and/or Materials

Additional readings may be supplied on the web or in class.

Course Description

Introduces students to the workings and interrelationships of the U.S. and world economies. Covers economic analysis principles, including aggregate economic activity, national income determination, monetary and fiscal policy, and business fluctuations. Focuses on real-world problems like poverty, inflation, unemployment, and economic instability.

Student Learning Outcomes (Should be measurable; observable; use action verbs)

- 1.1. Explain how choices and trade improve welfare.

- 2.2. Use the supply and demand model to describe individual decision makers, an industry, and the economy as a whole.
- 3.3. Calculate features of the economy given a simplified dataset and discuss the limitations and benefits of using each construct to describe the economy.
- 4.4. Model the effects on society of changes in macroeconomic variables.
- 5.5. Identify assumptions, relevant information, alternative solutions, and societal or civic issues related to economic problems, and use critical thinking to propose solutions.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students will need reliable computer and internet access and must be able to use myLeo email, myLeo Online (D2L), and Microsoft Office.

Instructional Methods

Face-to-face instruction includes lectures, class discussions, assigned readings, homework, and online exams through the course page.

Student Responsibilities or Tips for Success in the Course

Regular attendance, timely completion of assignments, active participation, review of course announcements and university email, and preparation for exams are important for success.

Assessments

Attendance

Regular attendance is expected and important for success in this course. Attendance accounts for 20% of the final course grade. Attendance will be taken during each class meeting. Students are encouraged to arrive on time, remain for the entire class, and actively participate. Repeated absences or tardiness may negatively affect the attendance grade in accordance with university attendance policies.

Assignments

Homework will be assigned at the end of each chapter and will count for 20% of the final grade. Completing these assignments is essential to reinforce concepts learned in class and prepare for exams. Assignments are due as scheduled, and late submissions may not be accepted.

Exams

Exams are administered through the course page. Students are responsible for testing computer and software compatibility before starting an exam and for maintaining a reliable internet connection. Exams are timed and can only be taken once. Make-up exams are granted only at the discretion of the instructor with written documentation submitted within 3 calendar days of the missed exam. No make-up exam will be given for the final exam.

Use of Artificial Intelligence

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
