- Understand various IMC strategies.

MEANS OF ASSESSMENT

Class Introduction (10 points)

Students will be required to introduce themselves to the class by sharing educational and professional details. See class schedule and D2L for due dates.

Module Quizzes (140 points)

Students will be required to complete the syllabus quiz and fourteen module quizzes worth 10 points each, though your lowest quiz score will be dropped. Essentially, you will complete a quiz each week on the D2L platform. Module quizzes consist of either 5 or 10 questions and test knowledge of the material covered in the corresponding chapter(s). **Module Quizzes will be available during the entire period when the corresponding module is open.** Module quizzes are open book and not timed. No make-ups are available beyond the dropped quiz.

Module quizzes are independent student assignments. **Outside assistance of any kind other than the open book/open notes allowance described above is strictly prohibited.** Additionally, copying or sharing questions in any format is strictly prohibited and will be considered a violation of the ETAMU Student Code of Conduct, and copyright law. Quizzes will be reviewed to ensure question quality and overall question performance. See Class Schedule and D2L for quiz dates.

Exams (400 points)

Five exams are available in the course, and the **top four** exam scores will be used in computing your final grade. **All exams must be taken using a laptop or desktop computer.** Phones, iPads or other tablet brands may not be used to take tests. Exams are **closed book/closed notes** and will be taken on the D2L website using Respondus. **Exams are proctored** and contain 50 multiple-choice questions. Each exam is worth 100 points and assesses student knowledge regarding module readings. Exams are timed; students will be allowed a 60-minute window in which to complete an exam from the time it begins. Please be sure that you have allowed enough time to complete each exam once you start as exams will automatically be submitted at the deadline. Please review the RESPONDUS PROTOCOLS document posted to D2L.

If you miss Exam #1, #2, #3, or #4 for ANY reason, you MUST take the final exam – no exceptions! No make-up exams are available beyond taking the final exam so **do not ask for special consideration**. You may also choose to take the final exam if you performed poorly on one of the first four tests. Your lowest exam score will be dropped regardless of which test is lowest. If you are happy with your first four exam scores you do not need to take the optional final exam.

All Exams are independent student assignments. **Outside assistance of any kind and copying/sharing questions in any format are strictly prohibited** and will be considered a violation of the ETAMU Student Code of Conduct and copyright law. Overall class results will be shared for quizzes and exams, but graded tests will not be returned. TECHNOLOGY REQUIREMENTS

CWID and Password

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@etamu.edu.

Technology-Related Issues

Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, an ETAMU campus open computer lab, etc.

Minimal Technical Skills Needed

Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

Learning Management System (LMS) – D2L

All course sections offered by East Texas A&M University have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are the technical requirements:

- View the [Learning Management System Requirements Webpage](#).
- Learn more on the [LMS Browser Support Webpage](#).

Turnitin

MKT 366 will use Turnitin, an originality checker for some assignments. This service is free for students. Assignments subject to Turnitin must meet a 20% or less similarity threshold. Prior to a deadline, students can resubmit their assignment as many times as needed during the week it is due in order to meet the 20% or less threshold (not counting highlighted parts related to assignment headings, references, and correctly quoted material). It is the student's responsibility to allow enough time for resubmission of their assignment to Turnitin if their initial report did not meet the 20% or less threshold. An assignment not meeting the 20% or less threshold by the due date/time may earn a zero (no exceptions for procrastination, lack of planning, etc.).

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Support options can also be found on the [Brightspace Support Webpage](#).

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The [Code of Student Conduct](#) is described in detail online in the [Student Guidebook](#). Students should also consult the [Rules of Netiquette Webpage](#) for more information regarding how to interact with students in an online forum.

Interaction with Instructor

If you have any questions or are having difficulties with the course material, please contact your instructor. Correspondence will always be through university email (your “myLeo” mail) and announcements in myLeo online (D2L). You will not RECEIVE email through D2L, so be sure to check your ETAMU email for communication. Students are encouraged to check university email daily.

Include the Following in Emails with Instructor:

- Course name and subject in the subject line;
- Salutation (Good afternoon, Dr. James)
- Proper email etiquette (no “text” emails – use proper grammar and punctuation)
- Student name and CWID after the body of the email (possibly add to student signature on email)

Course Participation and ETAMU Attendance

As this is an online course, submission takes the place of attendance and will be monitored closely by the instructor. Student online activity is monitored. Students are expected to participate each week. A student who does not participate in the class and complete requirements on time will find it difficult to fulfill his/her course obligations. D2L automatically maintains a log of when students open documents. For more information about the University’s attendance policy, please view the [Attendance Webpage](#) and the [Class Attendance Policy](#).

Policy on Late Assignments and Makeups

Late submissions continue to be a serious problem for students. Not fully enforcing deadlines is unfair to those students who sacrifice to meet deadlines. Because unexpected personal emergencies arise, technology fails, and other delays occur, students should make every effort to submit their work well in advance of any deadline. **You will earn ZERO points for late work.** All assignment submissions must be submitted to the designated area. **To reiterate, late submissions will NOT be accepted.** Computer problems, work issues, last-minute illnesses, and other such reasons do not qualify as valid excuses.

Exams and assessments are delivered online and involve a defined completion and submission window. As such, make-ups are not permitted for any reason. Students missing any of the first four exams are required to take the comprehensive final exam.

Academic Integrity

Students at East Texas A&M University are expected to maintain high standards of integrity and honesty in all their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

- [Undergraduate Academic Dishonesty University Procedure 13.99.99.R0.03](#)

Use of Artificial Intelligence

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. **Any use of such software must be documented.** Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. **If no instructions are provided the student should assume that the use of such software is disallowed.** In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
