COURSE INFORMATION

No textbook is required for this course. It is an ACUE supported course conducted online/asynchronously.

COURSE DESCRIPTION

Master online teaching strategies that transform digital courses into active learning experiences with organized content, collaborative discussions, and ways for students to build connections and apply their new knowledge. Completing this course is one step toward earning ACUE's Effective Teaching Certification with an emphasis on web-based instruction, endorsed by the American Council on Education (ACE). Or, the course can serve as a dynamic stand-alone experience. This course is one of four that comprise the Effective Online Teaching Practices Certification.

Course Design

Consider this a mini-graduate course in which you will dedicate at least 2-3 hours per week engaging with the material, implementing teaching practices with your students and your colleagues, and composing a written reflection. Each module provides you with various research-based practices designed to assist you in designing learner-centered equitable courses. Among these, you will select and implement the practice(s) that best suits your pedagogical style. The ACUE course is community-based, and you will have many opportunities to learn from and share ideas with your colleagues about the practices you are learning. Your facilitator will guide you through the modules, help to create an environment where questions, conversation, and learning are valued.

All work will be done within Canvas, the LMS used by ACUE. D2L will only be accessed to view the syllabus and grades for US 597. You will receive a grade of Satisfactory or Unsatisfactory for US 597 (see section under **Grading** for more details). If you complete all modules within ACUE you will receive a badge for the ACUE course.

The syllabus/schedule are subject to change.

Course Learning Objectives:

- Implement evidence-based teaching practices that promote student engagement and learning.
- Reflect on and refine teaching practices.
- Engage with peers about teaching practices, successes, and challenges.

Module Components

The following table provide a description of the module components:

Open	Start	Due	Module
Block 1: Promoting Active Learning Online			
	08/31/26	09/06/26	Developing Effective Modules and Microlectures (AL1)

09/25/26	10/05/26	10/11/26	Facilitating Engaging Online Discussions (AL6)
End of Course Survey			

Earn an ACUE badge in Promoting Active Learning Online

To earn the course badge, you will complete six modules, which taken together address the knowledge and skills needed to more actively engage your students in learning and critical thinking. As you engage with each module, you will view videos to learn from various faculty and students who have engaged in active learning practices. The abundance of resources taken together with the videos are designed to help you implement the practices being taught. Opportunity to participate in thought-provoking discussions to learn with and from your colleagues is also included. Finally, you will reflect on the implemented teaching practices and write about your experience, which will be reviewed and scored by an ACUE National Reader.

Complete the following to earn an ACUE badge for each module:

- Engage with module content.
- Implement or plan to implement an inclusive practice.
- Write a reflection of the experience.
- Complete the Practice & Reflect II survey.

COURSE REQUIREMENTS

Assessments

COMPLETE THE START HERE MODULE

- Complete the Enrollment Survey. (Note: You must complete the Enrollment Survey to unlock your first modules.)
- **Create your profile** by following the directions provided.
- Meet your cohort and your facilitator by joining the Introduce Yourself forum on the course home page. Click on the Introduce Yourself link at the top of the module components list. Here you can join in your first cohort

The syllabus/schedule are subject to change.

discussion forum, meet the other course-takers in your cohort, and become acquainted with some of the features of Canvas.

- Watch a short introduction video that will walk you through ACUE's Learning Design.

ENGAGE

- Begin with the module's Introduction video that previews the learning objectives and motivates you to learn more, and answer the questions provided that are designed to surface your prior knowledge and deepen your thinking about the practices you'll learn.
- Review the module's Learning Objectives and connection to supporting research. You can also download the skeletal outline to help organize your notes for the module and a vocabulary guide for the module.

LISTEN, WATCH, & LEARN

- Study relevant practices, supporting research, and commentary by nationally recognized experts in the **Experts Insights**.
- Watch the **Course Demonstrations** to observe effective practice and student reactions in authentic classroom settings.
- For both Expert Insights and Course Demonstrations, select the path that most closely aligns with your role on campus. The video resources have been divided into Core and Explore. We encourage you to watch the videos noted as Core for your role and to explore the other videos available, according to your interests.
- Consult and download the **Implementation Resources**, to aid in the implementation of effective practices and help you to learn more about the topics.

DEEPEN THINKING

- Learn about **Common Challenges & Misconceptions** others are likely to encounter as they implement the practices.
- **Observe & Analyze** presents three videos that recreate the practices in action. View two of the three videos and engage in the discussion forum.
 - In the discussion forums:
 - To post an idea, click the **Reply** button above the discussion board.
 - To comment on another post, click the **Reply** button at the bottom left of the post.
 - To agree with a post by the facilitator or another course-taker, click the **Like** button at the bottom left of the post.

PRACTICE & REFLECT

- **Select and implement** at least one practice from the module that you feel will increase a sense of belonging for others.
- **Reflect** on your experience by posting a written reflection that explains the practice you implemented, shares the impact it had on others, and shares your plans for next steps. The requirements for each reflection assignment are included in the Practice & Reflect assignment space.
 - An ACUE reader scores your reflection and provides comments based on the rubric. Your reflection will be marked as complete if it meets the rubric criteria. If your reflection requires additional information, your reader will note what should be added, and you can resubmit your reflection in the assignment space.
 - After you have submitted your reflection assignment, complete Practice & Reflect II to consider what you learned in the module and which practices you implemented or plan to implement.
 - Completion of both Practice & Reflect I and II is required to earn a badge for the module.

The syllabus/schedule are subject to change.

For more information about the attendance policy please visit the [Attendance](#) webpage and [Procedures 13.99.99.R0.01](#)

Academic Integrity

Students at East Texas A&M University are expected to maintain high standards of integrity and honesty in all their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

[Undergraduate Academic Dishonesty 13.99.99.R0.03](#)
[Undergraduate Student Academic Dishonesty Form](#)

Use of Artificial Intelligence

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
