Course Description

This course will include, but will not be limited to, culture as a function of socioeconomic status, religion, gender, language, age, exceptionality, geographical origins and ethnicity. Additionally, this course will include information relating to these issues in multicultural education context.

The student is expected to be able to:

1. Identify and explore educational issues relating to various populations;
2. Apply information related to psychological and sociological research on decision- making and best practices in educational settings;
3. Extend concepts learned in this course to multicultural educational settings;
4. Practice research methods using available electronic databases to seek and access research-based information relating to multicultural awareness; and,
5. Develop writing skills using APA Writing Style, including the correct usage and formatting of APA Style citations and references.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

- Using the learning management system Using Microsoft Word and PowerPoint
- Using general Internet search engines to locate research related to topics
- Accessing and using the East Texas A&M University- Library electronic databases

Instructional Methods

This course is delivered to you fully online, using the LMS (MyLeoOnline/D2L/Brightspace) instructional system that is available to you through East Texas A&M University. There are no on-campus meetings of this class. “LMS” refers to Learning Management System, and the names “D2L”, and “Brightspace” are all names that refer to the one online learning management system that ETAMU is currently using for all of its web-based courses. In this syllabus, you will see the LMS referred to as D2L or Brightspace or your LMS website.

This is not a self-paced course. There is a specific, scheduled format you will follow for the course. All assignments and quizzes are to be completed according to the posted schedule.

You will need to sign in online daily to check your campus email.

You will need to sign into your course LMS website every day to work on your course.

Student Responsibilities or Tips for Success in the Course

Read the text: Read the chapter we are covering when it is assigned. This prepares you to complete the assigned work.

The syllabus/schedule are subject to change.

Ask questions: If there is something you do not understand, ask questions. You may email me directly! Ask questions as early as you can! – The most important!

*Please feel free to contact me any time you have questions. I make a rule for myself, and I would like for you to follow it. If I spend an hour on something, and really **give it my all, but I still can't get it, it's time to ask for help.** Don't be afraid to ask for help! Don't just sit there getting frustrated!*

Take notes: Take GOOD notes while you read. It is a good study habit to go over your notes at the end of each week, filling in the blanks from the supplemental video(s) and assignment. It is also a good idea to make friends in the course and get the phone numbers of a couple of people who you can clarify notes with.

Utilize D2L: All instructions, due dates, and submission of graded material are to be completed in D2L. **Email submission will not be accepted.** Please take some time to familiarize yourself with the system and contact me or IT with questions in advance.

Purchase a spiral notebook and keep it near your computer as you work. Take notes as you read online lectures. Take notes as you read your classmates' posts. No one can reasonably expect to keep all of the information and names and content in the memory--that would be a very poor study habit, and will keep you from doing well. Instead, use that spiral notebook as a study tool for success. Make notes as often as possible. Then, before and after each online session (an online session refers to each time you sign online), review what you have written in the spiral notebook, reminding yourself of what you have covered, posts to which you wish to respond, information that you have found on various course-related websites, etc. Your spiral notebook will then become a valuable resource for down the line as well...long after you have completed the course. If you pursue a career in teaching, then the spiral notebook is something to which you may refer for years to come.

GRADING

Final grades in this course will be based on a points system, with the following percentage scale determining your final semester grade:

A = 90%-100%
B = 80%-89%
C = 70%-79%
D = 60%-69%
F = 59% or Below

Syllabus Quiz	50 pts
Research Participation	100 pts
Discussions	500 pts
Quizzes (3 x 200 pts each)	600 pts
Final Paper	200 pts
Total:	1450 points

The syllabus/schedule are subject to change.

Assessments

Quizzes will contain objective questions over material that is presented in the textbook. A multiple-choice format will be used. You will take your exams online, on our course website, and they will be timed exams. You will have a certain period of time in which you are able to take the exams, and you will have to complete the exam in the designated period. **You will be able to use your textbooks when you take the exam; however, because the exams are timed, you will find that you MUST read and learn the material thoroughly prior to taking the exams, just as you would do for a closed-book exam in a face-to-face class.**

If you try to take the exam without having read and studied the material, you will run out of time as you try to look up each answer. You will find that you will fail the exams if you try to do that (trust me, and those who have gone before you on this!). The requirement to read and study the material is the same for both web-based courses and face-to-face classes. Even though the quizzes are "open book", they will be challenging, and you will not have much time to answer each question. Don't make the mistake of ignoring this requirement (to complete the readings prior to each quiz), or you will find that you start the semester with a low grade, and that will impact your overall semester average.

EMAIL POLICY

If you would like to schedule an appointment, the best way is to email. We can then set up a time to chat when it is convenient for both of us. If you email me and do not receive an email response within 48 hours during the weekday, most likely, your email was not received.

- Address the Reader:
- Use good grammar and avoid acronyms (i.e., do not write like you text)
- Ask good questions; a good question is specific and show me the effort you've made.
- If asking for assistance with an issue, please list how you have attempted to remediate the issue prior to contacting me (these should probably include looking at the syllabus/ course rubrics/ D2L, contacting a colleague, and checking your textbook, etc.)
- Close with your name and CWID.
- Please send emails from your University Leomail account.
- The instructor will NOT discuss grades over email. If you would like to discuss your grade, please make an appointment during office hours.

If you are reading this, email me a photo of your pet (or favorite animal) based on the above email guidelines for 2 extra credit points (available up till the end of the first week (Sunday midnight ☺)).

University Specific Procedures

Plagiarism: East Texas A&M University views plagiarism as a serious offense. Plagiarism occurs when individuals take ideas and/or words from another source and claim these ideas as their own without giving credit to the original author(s). This can include copying words from an Internet website, reading an article and taking the authors ideas without giving them credit, or writing work that is remarkably similar to other written work (e.g., Changing words to synonyms is still plagiarism). If any written work contains ideas that are not your own, you need to give credit to the author(s) by including citations. Instructors are obligated to report instances of plagiarism to university officials. Please refer to the American Psychology Association (APA) manual for instructions on citing materials. When in doubt, ask me. Ignorance will not be tolerated as an excuse for plagiarism. Acts of plagiarism on any written assignment, including discussion postings, will result in severe consequences, including the possibility of receiving a zero in the course. Acts of plagiarism will be reported to the department head.

Scholarly Expectations: All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical to make duplicate submissions of a single work for credit in multiple classes, unless specifically requested by the instructor. Duplication may result in a zero on an assignment.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as students' progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Artificial Intelligence

East Texas A&M acknowledges that there are legitimate uses of Artificial Intelligence, Chatbots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. **If no instructions are provided the student should assume that the use of such software is disallowed. Unless otherwise stated in the assignment instructions, the use of AI software/apps to generate discussion or assignment content will result in a grade of ZERO (0) and/or possible charges of academic misconduct.**

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
