

PRINCIPAL AS INSTRUCTIONAL LEADER (268) EXAM TEST PREP SESSION

The Principal as Instructional Leader Certification test prep session is designed to provide students in approved Texas Preparation Programs an opportunity to review and practice applying their skills for the 268 assessment. The new ONLINE session will allow principal preparation candidates to have access to advance training for 268 and skill building exercises from home!

In the AM session, students will receive general test-taking tips and strategies, engage in a deep-dive in the domains and competencies, review and practice with 268 question types and content, and conduct a TAPR review. After a lunch break, students will receive in-depth instruction on how to respond to constructed-response questions and how to self-assess their writing using the CR rubric.

Students will also answer cluster questions and receive rationale for correct responses. We will close the online session with a Q&A so you will get answers to what is on your mind about the 268 exam.
