Career Objective

Innovative, empathetic social worker with 4+ years of career experience in a higher education setting. Bringing broad experiences in office management and a variety of roles in the higher education arena, I prioritize the consumer experience. I aim to utilize social work innovation, higher education experience, and dedicated skills to meet the goals of those I encounter in the consulting industry. Impact driven, I am self-motivated in leveraging my experience and skills to provide a positive customer experience. Whether working alone or in a group setting, I am cross trained across all levels of direct customer contact, have classroom and staff experience, and strive to promote success for myself and my team. It is my goal to leverage my social work experience to provide a holistically aimed focus to my work, assessing and meeting all perceived needs of those I come across within any work environment.
