## **COURSE INFORMATION**

### **HEALTH SERVICES ADMINISTRATION PROGRAM DESCRIPTION**

The Bachelor of Applied Arts and Sciences in Organizational Leadership (ORGL) degree is a competency-based program that prepares innovative leaders for employment in an increasingly technological and global society. This program provides opportunities for students to receive credit for what they know and can do already, allows them to accelerate completion of their degree, and — because it is fully online — students are able to plan their study schedule around the rest of their day to complete the coursework.

### **COURSE DESCRIPTION**

This course examines major strands of U.S. health policy. Detailed discussions are given to the relationship of national policy to the planning, implementation and funding of health care services. Development planning, political advocacy and networking are all discussed.

### **STUDENT LEARNING OUTCOMES**

Completion of this course provides the student with the knowledge to:

- Articulate the life cycle of policy development
  - To gain an understanding of federal, state, and local health policy
  - To gain an understanding of the health policy making process
    - Learn how to write a concise and effective policy
- Analyze the impact of healthcare policy
  - Examine ethical issues and cultural diversity in health services.
  - Social Determinants of Health
  - Be able to identify a barrier that can limit a person's ability to receive optimal healthcare and suggest ways to overcome them.
- Describe and explain the relationship between advocacy, health care administration practice and policy change
  - Develop advocacy strategies for defined public health issues
    - Identify the stakeholders who are influential to making policy change on a given public health topic.

- Value the roles and relationships of governance, executive leadership, and external stakeholders in strategically addressing the health needs of a community or target population.
- Understand and apply Healthcare regulations and policies.

## MATERIALS

This course has been designed using Open Educational Resources (OER) and/or materials that are available through the [Waters Library](#). All materials are embedded within the course or are accessible via the internet or accessible through the Waters Library resource portal. After taking the pretest, students are encouraged to bookmark, download, or save materials provided via the internet for use with assignments and projects in this class.

## REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three-semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

## COURSE REQUIREMENTS

**Minimal Technical Skills Needed:** Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

**Instructional Methods:** This course is an online course. To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) must be completed. Please contact the instructor by email for any assistance.

Email your instructor as soon as you complete your pre-test so the instructor can access and grade your work.

**Student Responsibilities or Tips for Success in the Course:** To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) should be completed. Please contact the instructor by email for any assistance.

## ASSESSMENT

Students must achieve 80% or higher for the both the post-test or module project and culminating project to demonstrate competency and pass the course.

### Pre-test

The purpose of the pre-test is to provide a baseline understanding of your knowledge in this competency. Pre-tests are taken once and should be completed upon the first couple of days of a CBE academic term or entry into a course if a student is an accelerator. The pre-test is required before you begin studying course materials. If students do not make at least 80% on the pretest, they will be expected to complete assignments, quizzes, and other course content to prepare for the post-

test and culminating project. Students are required to complete the post-test even if scoring 80% or higher on the pre-test. The grade on the pre-test does **not** count in the final grade for this course.

### **Learning Objective Reflections or Projects or Essays**

A brief assessment at the end of each module is intended to emphasize key concepts, theories, processes, etc., introduced in the Learning Objective Module. Depending on the course, that can be done through reflections, projects, or essays. Essays are submitted to the instructor and do not require comments or “discussion” with other students in the course.

### **Post-test**

The end-of-course/module comprehensive exam that assesses student knowledge and understanding of major concepts, theories, processes, etc., in the course/module. **A score of 80% or higher is required** to demonstrate competency. **DUE: Last day of week 7, Friday by 11:59 PM CST.**

If you score less than 80% on the post-test, you will have an opportunity to review the material and retake the post-test two additional times. Students who fail the post-test should review feedback from the instructor before reattempting the post-test. If the post-test score is less than 80% within three attempts, students will receive a grade of “F” in the course and will be required to retake the course in the new term.

If you score less than 80% on the post-test, you will have an opportunity to review the material and retake the post-test two additional times. If the posttest score is less than 80% within three attempts, students will receive a grade of “F” in the course and will be required to retake the course in the new term. Students who fail the posttest should review feedback from the instructor before reattempting the posttest.

### **Culminating Project**

The project assesses your knowledge of terms and the application of concepts presented in this course. **A score of 80% or higher is required** to demonstrate competency. **DUE DATE if you want feedback for revisions: End of week 6. HARD DUE DATE: Last day of week 7, Friday by 11:59 PM CST.**

If students score less than 80% on the culminating project, they will have an opportunity to review the material and resubmit the project up to two additional times. If the culminating project is less than 80% within three attempts, students will receive a grade of F in the course and will be required to retake the course in the new term.

### **GRADING**

A score of 80% or higher on both the Culminating Project or Post-test is required to demonstrate competency and receive credit for the course. The following items will be used to calculate the final grade in the course.

| Item                                     | Worth           | Weight towards Final Grade |
|--|-----------------|----------------------------|
| Learning Objective Posttest / Assignment | 100 points each | 12.5% each (50% total)     |
| Posttest                                 | 100 points each | 25%                        |
| Culminating Project Attempt              | 100 points      | 25%                        |
| <b>Total</b>                             |                 | <b>100%</b>                |

### Grading Scale

A = 90%-100%

B = 80%-89%

F = 79% or Below

### Acceleration Process

Students enrolled in competency-based education courses in the College of Innovation and Design are permitted to accelerate from one CBE course to another during a seven-week academic term under certain conditions. The request to accelerate from one course to another must be initiated by the student upon successful completion of currently enrolled CBE courses. Students are responsible for maintaining communication with faculty and their assigned advisor(s) throughout the acceleration process. Students who fail a course or who drop/withdraw from a CBE course are not eligible for acceleration. Student may only request permission to accelerate in one course at a time. Request to accelerate is initiated and completed by 5:00 pm CST on the fifth Friday of a seven-week academic term.

#### Process

1. Student successfully completes all required coursework in their CBE courses(s) with a grade of "A" or "B."
2. Student receives emailed verification from the assigned instructor that the course has been satisfactorily completed (Grade of A or B only).
3. Student contacts assigned advisor to provide proof of completion and discuss eligibility for acceleration into another course.

## TECHNOLOGY REQUIREMENTS

### LMS

### Interaction with Instructor Statement

This is an online course; therefore, expect most communication to be online as well. If you have any questions or are having difficulties with the course material, please contact your instructor. Correspondence will always be through university email (your “myLeo” mail) and announcements in myLeo online (D2L). The instructor will make every effort to respond to emails within 24 provided the correspondence follows the requirements listed below. Students are encouraged to check university email daily.

**All emails from students should include:**

- **Course name and subject in the subject line (ex. EDCB 517 – Posttest)**
- **Salutation**
- **Proper email etiquette (no “text” emails – use proper grammar and punctuation)**
- **Student name and CWID after the body of the email**

### Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

### Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).
