Dallas College Nursing Faculty, Sep 2015 – Present

Career Objective- Online Nursing Faculty Role

Experienced and highly adaptable nursing faculty member with a strong background in both online and classroom instruction. Proven track record in creating engaging learning environments, leveraging analytical and problem-solving skills to enhance student outcomes. Recognized for flexibility in teaching approaches, technological proficiency, and commitment to student success. Seeking to contribute expertise to Dallas College's BSN program by transitioning fully to an online format, where I can continue to support and inspire the next generation of nursing professionals.

- **Adaptable Educator:** Skilled in adjusting teaching methodologies to meet diverse student needs in the virtual setting.
- **Proven Team Collaborator:** Frequently praised for collaborative efforts and leadership in course design and peer mentorship.
- **Technologically Competent:** Proficient in utilizing Learning Management Systems (LMS), online assessments, and interactive tools to enhance student learning experiences.
- **Student-Focused:** Demonstrated ability to help students achieve their academic goals with personalized support and timely feedback.
