Glenn Hegar

Chancellor, The Texas A&M University System

Glenn Hegar became chancellor of The Texas A&M University System in July of 2025. As chancellor, he leads one of the largest systems of higher education in the nation, with a budget of \$7.3 billion and an enrollment of more than 165,000 students across 11 universities. Additionally, the System has a comprehensive health science center, eight state agencies, a research-and-education campus at Texas A&M-Fort Worth and an applied research campus at Texas A&M-RELLIS. System-wide, research and development expenditures of the System exceed \$1.5 billion and help drive the state's economy.

Hegar was raised on a farm in the small town of Hockley, just outside Houston. While he ultimately earned his degree in political science at Texas A&M in 1993, he started his college career at a local community college in order to continue helping on the farm. Those early years taught him determination, honesty and integrity, but most importantly, they taught Hegar the value of hard work.

Hegar went on to earn a law degree at St. Mary's University School of Law, where he met his wife, Dara. He also graduated with a master's degree in law from the University of Arkansas.

Hegar then spent his career in service to the people of Texas. He served in the Texas Legislature as a state representative and a state senator, and he later became the State Comptroller of Public Accounts, where he developed a reputation for delivering results, prudently managing billions in taxpayer funds and leading with principle.

Known for his hands-on leadership and deep commitment to public service, Hegar is now focused on one primary mission: unlocking the full potential of the A&M System to build the next generation of Texas leaders.

Hegar and Dara have three children, Claire, Julia and Jonah.

Mark Rudin, Ph.D.

President, East Texas A&M University

Dr. Mark Rudin was appointed president of East Texas A&M University by The Texas A&M University System Board of Regents on August 16, 2018. Rudin has a Bachelor of General Health Science (1983), Master of Science in Health Physics (1985), and Doctor of Philosophy in Medicinal Chemistry with a concentration in Health Physics (1989) from Purdue University.

Student preparedness, expanded research, and economic development are among Rudin's top priorities as president. His vision for East Texas A&M includes adapting traditional models to meet the needs of all students and providing skills development in preparation for post-graduation employment.

Prior to assuming the presidency at East Texas A&M, Rudin served as the vice president for Research and Economic Development at Boise State University. During his 11 year tenure at Boise State, he played a central role in expanding research activity and developing collaborative partnerships with both public and private entities.

Rudin previously served at the University of Nevada, Las Vegas in a variety of administrative roles before being named interim vice president for research and graduate dean. He also served as a technical/administrative assistant with the U.S. Department of Energy and as a senior program specialist/project engineer with EG&G Idaho, Inc. Rudin's career in education began in Idaho where he served as an instructor in the Department of Health Physics at Idaho State University.
