

1. Select FileWave Kiosk Icon from system tray.

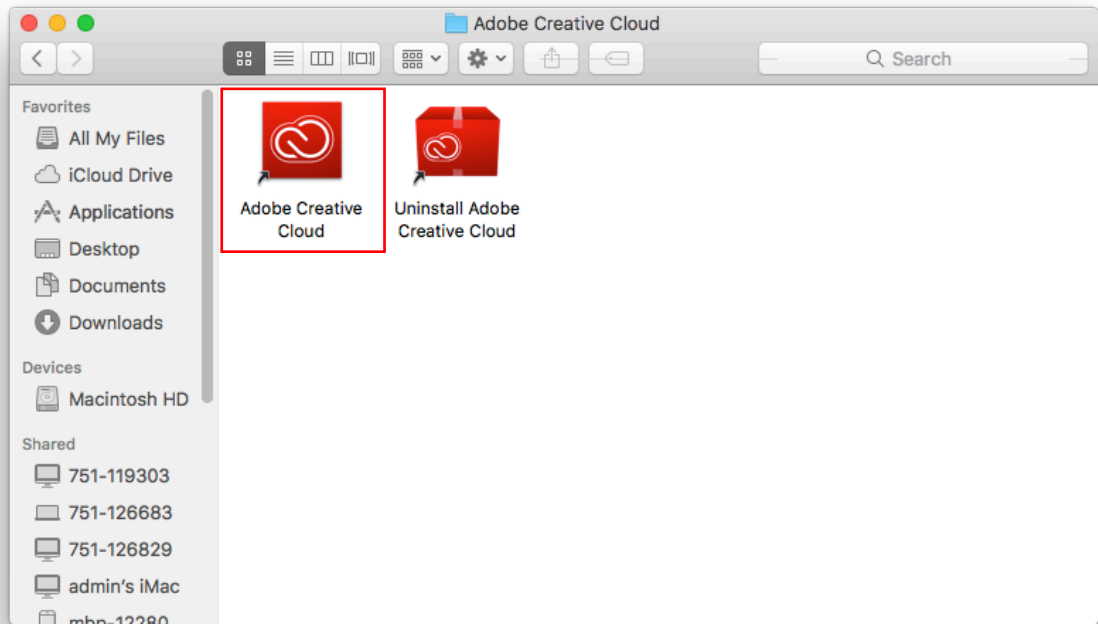

2. Click install from Kiosk screen. You will see a status "Install" bar.

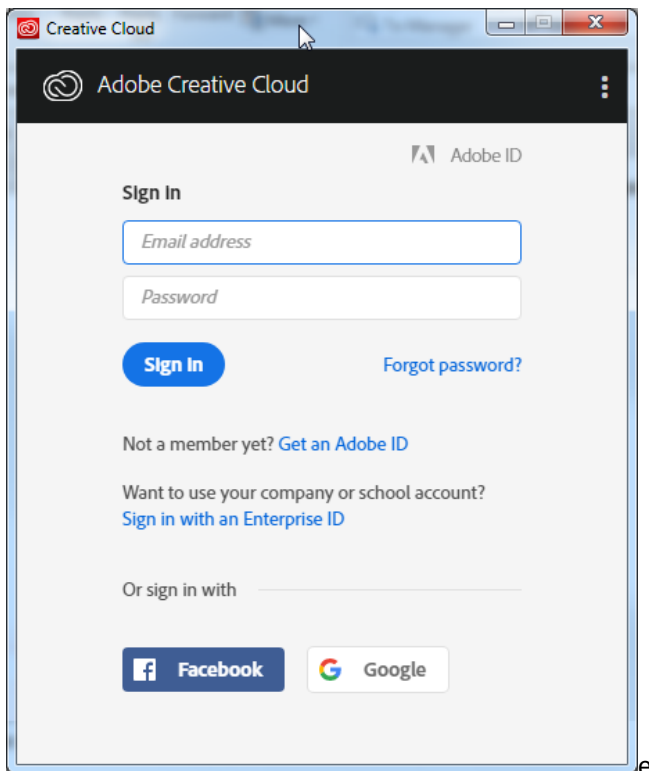

3. After the installation is done, you would see the Creative Cloud App in the Application Folder.

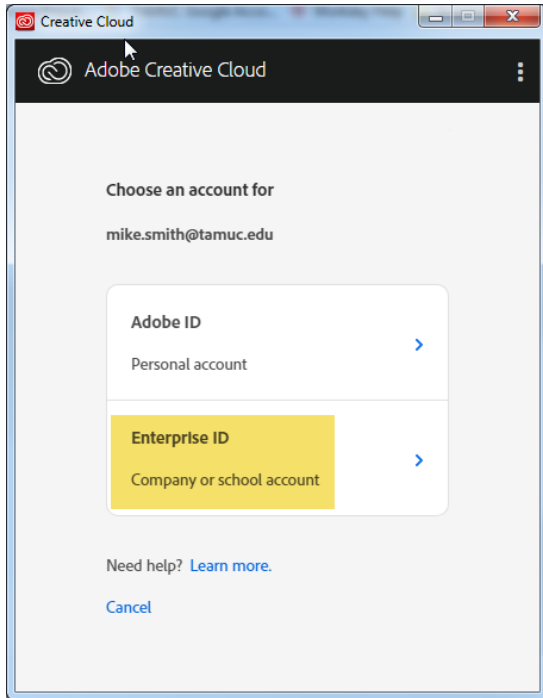

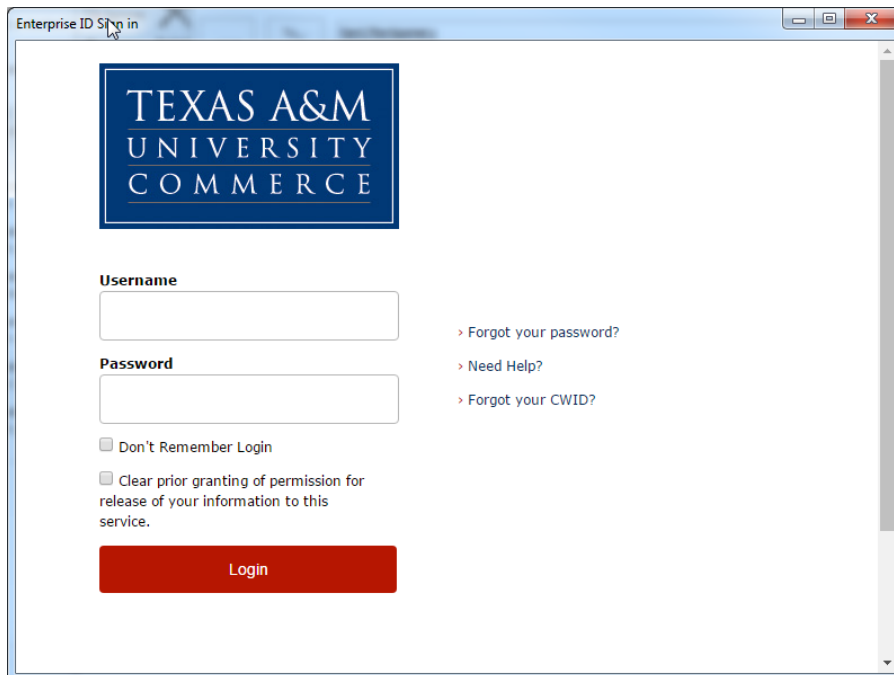

4. Selecting Adobe Creative Cloud will prompt a sign in. Entering your email address and hitting enter will automatically redirect you.

5. You will need to select Enterprise ID **only if you previously had an Adobe account**. *If you have not had an account before, skip to step 6.*

6. Authenticate with AD credentials

7. Creative Cloud may need to run an update

8. Select which Creative Cloud Apps you wish to have installed. Please install **only what you will need/use.**
