#### **Overview:**

The information provided in this document describes the process used to import trusted application settings from a previously exported list to a local endpoint.

NC	<b>NOTE:</b> ITSS should provide the needed file to you via an email to complete these steps.							
1.	Save the file emailed to you by the IT							
	technician that contains the configuration.							
	NOTE: Remember where you save these.							
2.	In the system tray, right click on the Kaspersky	Kanada Fadada Gamila 10 Galifadana
