To Connect Laptop to Classroom Projector:
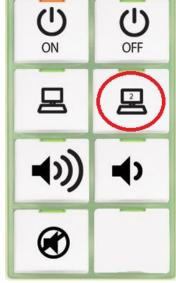

1. Plug extra HDMI or VGA cable into Laptop. (Please do **NOT** unplug cables from the PC in the Lectern)
2. Press the "input button 2" (circled below) on the Crestron control until the projector is on the correct input.

3. If laptop is still not showing, check the "mirror" settings:
   a. On a Windows laptop, select the "Window's" button and "P" key simultaneously to get to the laptop's projector output settings. Select "Duplicate" to output to projector
