

YouSeeU Sharing of Recording Link for Students to See Full Screen

One way students can access YouSeeU recordings in a full screen is for the instructor to create a Virtual Classroom Module. Instructors can do this by clicking underneath their current modules and clicking in the box they says, "Add a module..."

Once the module has been created, you can move this module within the left-hand navigation by clicking and holding on the eight squares to the right of the module.

The instructor will then need to go into the YouSeeU-Virtual Classroom in the navigation bar, and find the recording that needs to be added. The instructor will need to select the three dots to the far right of the meeting name.
